Endogenous Origins of Economic Reforms in India and China Rajiv G. Maluste, 2011-07 Attitudinal change in the context of economic reforms has been referred to in Rodrik and Subramanian 2005 DeLong 2003 Kohli 1989 and Panagariya 2004 2008 This dissertation provides empirical support for this literature establishing an earlier start for India's economic policy liberalisation than presented in stylized accounts It demonstrates the endogenous nature of the origins of these policy shifts Attitudinal change literature had directed attention to the need for further research into India's policy changes of the early 1980s and for studying broader comparability issues in other developing countries This research makes a contribution towards filling these gaps This dissertation shows that India started its economic liberalisation under the Indira Gandhi administration from 1980 to 1984 These findings depart from the conventional view that India's economic policy changes were initiated by the Narasimha Rao government in 1991 or by the Rajiv Gandhi administration in the mid to late 1980s The dissertation establishes that policy shifts of the early 1980s had endogenous origins in the political leadership's attitudinal changes The Indira Gandhi administration of the early 1980s revisited the statist policies of its previous tenure from 1966 to 1977 The new approach entailed more openness towards private enterprise scaling back the role of the public sector and starting India's integration into the global economy The dissertation also discusses the comparable role of attitudinal changes at the start of China's policy liberalisation led by Deng Xiaoping from 1978 to 1982 It focuses on the significance and challenges faced by China's political leadership in bringing about societal attitudinal change The dissertation concludes by drawing comparisons between India and China developing a linkage between their endogenous attitudinal changes and economic policy liberalisation **Marxism and the Making of China** J. Gregor, 2014-02-19 An assessment of the influence of the Marxism of Karl Marx and Friedrich Engels on revolutionary developments in China The work covers the period from the first appearance of the Chinese Communist Party under Mao Zedong until its full transformation by Deng Xiaoping into a nationalist developmental single party developmental dictatorship

China's Military Procurement in the Reform Era Yoram Evron, 2015-06-26 The decisions that shape the policy of weapons procurement are an important area of national security policy This is all the more true for China which during recent decades has vacillated between different sources and directions of military build up This book explores the politics of military procurement in China under the successive leaderships of Deng Xiaoping Jiang Zemin and Hu Jintao It shows how China's political and military leaders have sought to adjust military procurement policy to meet China's strategic objectives to relate it to non military needs to strike a balance between the import of weapons and indigenous production and to determine the connections between hardware and other components of military power Exploring in detail five major shifts in the nation's military procurement it traces the

considerations and negotiations among China's civilian and military leaderships. By doing so it offers both a conceptual framework and empirical grounds for evaluating the factors that shape China's military procurement directions as well as their limitations, prospects and operational implications. As the first book to study comprehensively and systematically the attributes shaping China's military procurement, it will be of great interest to students and scholars of Chinese politics, Chinese history and military and strategic studies.

China's State Ideology and the Three Gorges Dam Yuen-ching Bellette Lee, 2025-06-13 This book uses the case of the Three Gorges Dam project to explore the Chinese state's use of ideology, namely the political theodicy of development as a governing tactic in the reform era. Presenting observations from fieldwork collected after the dam's completion, it reveals communities who not only embraced their improved livelihoods but also expressed support for the mega project and the Party's leadership. However, the research also indicates that the effects of the ideological dissemination surrounding the project were not monolithic, with the development process involving extensive struggles and contradictions, including locals facing unemployment and the fragmentation of their social networks. This disjuncture between the state ideology and social reality thus revealed flaws in the official imperative of political theodicy. Displaying how the authoritarian rule of the Chinese state can be adaptive in modifying its mode of governance, especially when faced with the unintended consequences of failures, this book will be a valuable resource to students and scholars of Asian environment, development, politics and Chinese politics, history and society.

The Broken China Dream Minxin Pei, 2025-12-02 A provocative book that demystifies China's great democratic leap backward under Xi Jinping, revealing why the country's embrace of capitalism has given rise to hard authoritarianism, mass surveillance and one-man rule instead of democracy as many in the West had hoped. When China embarked on its transformative journey of modernization in 1979, many believed the country's turn toward capitalism would put its totalitarian past to rest and mark the birth of a democratic, open society. Instead, China reverted to a neo-totalitarian state, one backed by one of the fastest growing, most formidable economies on earth. The Broken China Dream pulls back the curtain on the regime of strongman Xi Jinping, revealing why the reforms of the post-Mao era have been reversed on nearly every front and why the world failed to see it coming. Exposing the truth behind China's economic ascendancy after the Cultural Revolution, Minxin Pei shows how, following Mao's death in 1976, Deng Xiaoping strategically deployed the tools of capitalism to preserve the Chinese Communist Party. Deng kept intact the institutional foundations of totalitarianism even as he unleashed private entrepreneurship and courted foreign investment, giving China's one-party state control of a vast repressive apparatus and the most critical sectors of the economy. Only a fragile balance of power among dueling factions prevented the rise of a totalitarian leader in the two decades after the Tiananmen crackdown in 1989, but this temporary equilibrium collapsed. Essential to understanding today's China, this meticulously researched book is a sobering account of why the country's reformers and institutions could not stop a shrewd and ruthless politician like Xi from resurrecting dormant totalitarian practices that, for the foreseeable future, have spelled

the end of the dream of a free and prosperous China Imagined Enemies John Wilson Lewis, Litai Xue, 2006-07-13 The fourth and final volume in a pioneering series on the Chinese military Imagined Enemies offers an unprecedented look at its history operational structure modernization and strategy Beginning with an examination of culture and thought in Part I the authors explore the transition away from Mao Zedong's revolutionary doctrine the conflict with Moscow and Beijing's preoccupation with Taiwanese separatism and preparations for war to thwart it Part II focuses on operational and policy decisions in the National Command Authority and subsequently in the People's Liberation Army Part III provides a detailed study of the Second Artillery China's strategic rocket forces The book concludes with the transformation of military strategy and shows how it is being tested in military exercises with Taiwan and the United States as imagined enemies

A Hierarchical Vision of Order Antoine Roth, 2023-01-26 China's vision for international order is a matter of great global interest This book analyses China's vision for foreign policy and how it is seeking to achieve its goals with its immediate neighbours The book provides a historically informed account by examining the legacy of China's imperial past and traditional political philosophy giving insights into the country's view of its place in today's world It argues that China today sees the maintenance of order as its own responsibility and that it believes this order needs to attribute different roles to small and big states to ensure stability Furthermore it explores the different tools China employs to achieve its vision including a proactive diplomacy the control of international discourse threat of punishment for misbehaviour and the promise of economic benefits in return for compliance

Studienarbeit aus dem Jahr 2008 im Fachbereich Politik Internationale Politik Region Ferner Osten Note 1,3 Universität Rostock 15 Quellen im Literaturverzeichnis Sprache Deutsch Abstract Die hier vorliegende Arbeit beschäftigt sich mit den Reformen des chinesischen Systems in den ersten zehn Jahren nach Deng Xiaopings Machtantritt im Jahr 1979. Im ersten Abschnitt dieser Arbeit wird in aller Kürze die Entwicklung der Volksrepublik China in der Epoche der Herrschaft Maos dargestellt werden. Im zweiten Teil soll dann auf das Ringen um dessen Nachfolge eingegangen werden. Danach wird sich diese Arbeit mit den Phasen der Reform und Öffnungspolitik bis zum Juni 1989 vor allem im wirtschaftlichen Bereich beschäftigen. Der Vierte Teil dieser Arbeit wird sich dann mit der Frage auseinandersetzen, ob und in welcher Form es im Zuge der Umstrukturierung der chinesischen Wirtschaft zu politisch erforderlichen Reformen kam. Abschließend soll ein kurzes Fazit der ersten 10 Jahre unter Deng Xiaoping sowie ein Ausblick auf die weitere Entwicklung der Volksrepublik China gegeben werden. Ziel ist es aufzuzeigen, in wie weit man bereits nach dieser ersten Periode vom Sozialismus chinesischer Prägung sprechen kann. Auf Grund der gegebenen Kürze dieser Arbeit wird eine Vielzahl von Themen unbehandelt bleiben müssen. Das Hauptaugenmerk wird sich auf die wirtschaftliche Entwicklung sowie die daraus resultierenden politischen Maßnahmen beschränken. Die Reformen im militärischen Bereich, Veränderungen im sozialen Leben des chinesischen Volkes sowie außenpolitische Veränderungen und die aufkeimende Demokratiebewegung werden in dieser Arbeit außer Acht gelassen oder nur Ansatzweise dargestellt.

The first generation revolutionary leaders have gone and the third generation leaders are genuinely in power. At the same time economic reforms since 1978 have now reached a plateau and a new impetus is called for to maintain the momentum of economic growth. Reform of the state enterprises is a good example of the situation. It is therefore an appropriate time to review developments in China and discuss what needs to be done in the future. A team of experts has been gathered to complete this formidable task. They come from Australia, China, Hong Kong and the United States. Each author deals with a specific policy area and his/her chapter will cover 1. what has been achieved since 1978 2. an evaluation of the policies and reforms so far with emphasis on what needs to be done in the future 3. what the plans of Chinese leaders on further reforms and future changes are and what the author's evaluation of such plans is and 4. what the vision following Deng's death will be The China and Eurasia Forum Quarterly, 2008 The Structure and Evolution of Chinese Social Stratification Li Yi, Dr. Yi Li, 2005-10-25 There have been two great shifts of power on the world stage during the past five centuries: the rise of Europe following the Industrial Revolution and the rise of the United States after its Civil War. As we speak a new power shift is beginning to take shape: the rise of Asia. Leading Asia's charge toward the world's center stage are the reemerging powers of China and India. To answer and adapt to such new challenges the United States must develop a thorough understanding of the society of China. This book is a groundbreaking work in China Studies. For generations China scholars have pursued the structure of Chinese social stratification but none has completely succeeded in constructing even a single complete model. The Annual Review of Sociology 2002 reported: Insufficient research attention has been given to emerging social classes in rural and urban China and existing analysis is hampered by the still evolving nature of social and economic structures in which social classes are in the making. Thus insightful analysis and reliable assessments are to be called for from future researchers. *The Structure and Evolution of Chinese Social Stratification* has finally addressed this gap. Dr. Li provides detailed analysis critical to understanding the class structure of Chinese society both pre 1949 and in the post Mao era. His explanation of the origin, structure and evolution of the model will be essential reading material for any introductory student of Chinese society *Hong Kong in Focus* S. G. Rioni, 2002 *Hong Kong in Focus* Political Economic Issues *China's Economic Leverage and Taiwan's Security Concerns with Respect to Cross-Strait Economic Relations* Zhenyuan Tong, 2002 **The New Asian Power Dynamic** Maharajakrishna Rasgotra, 2007-05-08 This volume examines the unfolding relationships among the five great powers in Asia: the United States, China, India, Japan and Russia. It explores recent bilateral relations between these states. While the central theme is how China, the rising power and the US, the sole superpower, will deal with each other, their policies and interactions will need to factor in the other three powers who will play significant roles in defining peace and stability in Asia Far Eastern Affairs, 2004
