Eradicating this Evil Mary Jane Brown,2017-09-25 First published in 2000 Routledge is an imprint of Taylor Francis an informa company Press, Platform, Pulpit Teresa Zackodnik,2011-12-20 Press Platform Pulpit examines how early black feminism goes public by shedding new light on some of the major figures of early black feminism as well as bringing forward some lesser known individuals who helped shape various reform movements With a perspective unlike many other studies of black feminism Teresa Zackodnik considers these activists as central rather than marginal to the politics of their day and argues that black feminism reached critical mass well before the club movement s national federation at the turn into the twentieth century Throughout she shifts

the way in which major figures of early black feminism have been understood The first three chapters trace the varied speaking styles and appeals of black women in the church abolition and women s rights highlighting audience and location as mediating factors in the public address and politics of figures such as Jarena Lee Zilpha Elaw Amanda Berry Smith Ellen Craft Sarah Parker Remond and Sojourner Truth The next chapter focuses on Ida B Wells s anti lynching tours as working within New Abolition and influenced by black feminists before her The final chapter examines feminist black nationalism as it developed in the periodical press by considering Maria Stewart s social and feminist gospel Mary Shadd Cary s linking of abolition emigration and woman suffrage and late nineteenth century black feminist journalism addressing black women s migration and labor Early black feminists working in reforms such as abolition and women s rights opened new public arenas such as the press to the voices of black women The book concludes by focusing on the 1891 National Council of Women Frances Harper and Anna Julia Cooper which together mark a generational shift in black feminism and by exploring the possibilities of taking black feminism public through forging coalitions among women of color Press Platform Pulpit goes far in deepening our understanding of early black feminism its position in reform and the varied publics it created for its politics It not only moves historically from black feminist work in the church early in the nineteenth century to black feminism in the press at its close but also explores the connections between black feminist politics across the century and specific reforms

The Human Tradition in the Civil Rights Movement Susan M. Glisson, 2006 The American civil rights movement represents one of the most remarkable social revolutions in all of world history While no one would discount the significance of the leadership of Martin Luther King and others we should also recognize that the fight could not have been waged without the countless foot soldiers in the trenches As an important corrective to the traditional great man studies these essays emphasize the importance of grassroots actions and individual agency in the effort to bring about national civil renewal These biographies assert the importance of individuals on the local level working towards civil rights and the influence that this primarily African American movement had on others including La Raza the Native American Movement feminism and gay rights Through engaging biographies of such varied individuals as Abraham Galloway Ida B Wells James K Vardaman Jose Angel Gutierrez and Sylvia Rivera Glisson widens the scope of most Civil Rights studies beyond the 1954 1965 time frame to include its full history since the Civil War By widening the time frame studied these essays underscore the difficult often unrewarded and generational nature of social change
