The Imagery of Writing in the Early Works of Paul Auster Clara Sarmento,2017-01-06 The early works of Paul Auster convey the loneliness of the individual fully committed to the work of writing as if he were confined within the book that dominates his life All through Auster s poetry essays and fiction the work of writing is an actual physical effort an effective construction as if the words aligned in the poem text were stones to place in a row when building a wall or some other structure in stone This book studies the symbolism of the genetic substance of the world re built through the work of writing inside the walls of the room closed in space and time though open to an unlimited mental expansion Paul Auster s work is an aesthetic literary self reflection about the mission of writing The writer character is like an inexperienced God whose hands may originate either cosmos or chaos life or death hence Auster s recurring meditation on the work and the power of writing at the same time an autobiography and a self criticism The stones the wall and the room the words the page and the book are the ontological structure of the imaginary cosmos generated in Paul Auster s mind like a real world born of the magma of words lost in another interior world
