Self And Story In Russian History:

Self and Story in Russian History Laura Engelstein, Stephanie Sandler, 2018-08-06 Russians have often been characterized as people with souls rather than selves *Self and Story in Russian History* challenges the portrayal of the Russian character as selfless self effacing or self torturing by exploring the texts through which Russians have defined themselves as private persons and shaped their relation to the cultural community The stories of self under consideration here reflect the perspectives of men and women from the last two hundred years ranging from westernized nobles to simple peasants from such famous people as Tolstoy Dostoyevsky Akhmatova and Nicholas II to lowly religious sectarians Fifteen distinguished historians and literary scholars situate the narratives of self in their historical context and show how since the eighteenth century Russians have used expressive genres including diaries novels medical case studies films letters and theater to make political and moral statements The first book to examine the narration of self as idea and ideal in Russia this vital work contemplates the shifting historical manifestations of identity the strategies of self creation and the diversity of narrative forms Its authors establish that there is a history of the individual in Russian culture roughly analogous to the one associated with the West

Self and Story in Russian History Laura Engelstein, Stephanie Sandler, 2000 Russians have often been characterized as people with souls rather than selves This study considers the stories of self of men and women across 200 years from peasants to Tolstoy as 15 historians and literary scholars situate narratives of self in their historical context Adventures in Russian Historical Research Samuel H. Baron, Cathy Frierson, 2015-04-08 American historians of Russia have always been an intrepid lot Their research trips were spent not in Cambridge or Paris Rome or Berlin but in Soviet dormitories with official monitors They were seeking access to a historical record that was purposefully shrouded in secrecy boxed up and locked away in closed archives Their efforts indeed their curiosity itself sometimes raised suspicion at home as well as in a Soviet Union that did not want to be known even while it felt misunderstood This lively volume brings together the reflections of twenty leading specialists on Russian history representing four generations They relate their experiences as historians and researchers in Russia from the first academic exchanges in the 1950s through the Cold War years detente glasnost and the first post Soviet decade Their often moving acutely observed stories of Russian academic life record dramatic change both in the historical profession and in the society that they have devoted their careers to understanding
