## **Self Ownership Freedom And Equality:**

Self-Ownership, Freedom, and Equality G. A. Cohen, 1995-10-26 In this book G A Cohen examines the libertarian principle of self ownership arguing that it cannot deliver the freedom it promises to secure thus undermining the concept that lovers of freedom should embrace capitalism its accompanying inequality

### **Self-Ownership, Freedom, and Equality**

Chichele Professor of Social and Political Theory Oxford University and Fellow G A Cohen, 2014-05-18 In this book G A Cohen examines the libertarian principle of self ownership which says that each person belongs to himself and therefore owes no service or product to anyone else This principle is used to defend capitalist inequality which is said to reflect each person s freedom to do as he wishes with himself The author argues that self ownership cannot deliver the freedom it promises to secure thereby undermining the idea that lovers of freedom should embrace capitalism and the inequality that comes with it He goes on to show that the standard Marxist condemnation of exploitation implies an endorsement of self ownership since in the Marxist conception the employer steals from the worker what should belong to her because she produced it Thereby a deeply inegalitarian notion has penetrated what is in aspiration an egalitarian theory Purging that notion from socialist thought he argues enables construction of a more consistent egalitarianism

### **Socialism as the Development of**

**Liberalism** Satoshi Matsui, 2022-01-15 This book addresses the question of what socialism is according to fundamental values rather than institutions Arguing that Marxist socialism is not only more gradual but also more radical than how it is usually understood this book shows that socialism extends liberalism by inheriting and furthering liberal justice including fundamental human rights Simultaneously socialism ultimately rejects liberalism because it does not consider liberal values such as liberty and equality society s primary principles Satoshi Matsui offers a new theory alienation has two dimensions Marxists seek to rectify policies that violate justice in a capitalist society and injustice in capitalism is alienation s first dimension From a communist society s perspective however justice itself is an alienated idea and the second dimension of alienation Marx s theory of alienation does not deny the liberal theory of justice but is rather a universal system that

encompasses it By fundamentally reexamining Marxism this volume provides a basic guideline for overcoming capitalist society and constructing a communist society *Sozialphilosophie und Kritik* Rainer Forst,2009 *Nozick, Autonomy and Compensation* Dale F. Murray,2007-08-15 Murray examines Nozick s critique of the welfare state argues the case for compensation and then offers a novel reconstruction of Nozick s libertarianism in the light of this analysis as a possible approach for more positive rights *Divergent Paths: The Hegelian foundations of Marx's method* Norman Levine,2006-01-01 *Divergent Paths* is the first in a series of three volumes that explores the historiography of the relationship between Hegel and Marx it sets the terms of the relationship between Marx and Engels and explores the genesis of the theories of Marxism and Engelsism from the late 19th century to the present day Given the vast pool of contemporary post Marxist theoretical work a study like this is sorely needed This is the most thorough exploration of Marx s ideas from Hegel through to the present day and is absolutely essential reading *Divergent Paths* Norman Levine,2006-02-13 *Divergent Paths* is the first volume of a groundbreaking three volume work Its purpose is to explore the relationship between Hegel and Marx to define the relationship between Hegel and Engels and to distinguish between the theories of Marxism and Engelsism Marx used Feuerbach towards the critique and ultimate transformation of Hegel s phenomenology and humanism This transformation which cut out Hegel s idealism by identifying the environment in which people produced their sustenance as the subject of history marks the genesis of historical materialism Marx continued to use Hegel s logical categories In chapter three of *Divergent Paths* Norman Levine conducts an in depth study of Marx s 1841 doctoral dissertation *The Difference Between Democritus and Epicurus Philosophy of Nature* It is the center of gravity and controversy of Levine s study Placed alongside Hegel s *Philosophy of History* Levine isolates the categories Marx appropriated from Hegel to show conclusively that Marx was not a dialectical materialist Levine then claims that Engels totally distorted the Hegelian legacy and this debasement is enshrined in his 1887 essay *Ludwig Feuerbach and The End of Classical German Philosophy* Levine brilliantly locates Marxism as the theory of Marx and Engelsism the theory of Engels According to Levine both embodied a separate view of history and society and their contradictions are expressive in part of their divergent receptions of Hegel This is an analysis like no other published to date with two more volumes planned Philosophers sociologists anthropologists and historiographers of Marx and Engels cannot afford to miss this study *Autonom leben* Herlinde Pauer-Studer,2000 In dem vorliegenden Buch wird in kritischer Abgrenzung zu den Ans tzen von John Rawls Ronald Dworkin und J rgen Habermas eine autonomiebezogene Konzeption des politischen Liberalismus entwickelt welche die Herstellung sozialer Gleichheit als Mittel der Freiheitssicherung begreift Neben einer detaillierten Analyse der Begriffe Freiheit Gleichheit und einer Diskussion der angemessenen Parameter der Verteilungsgleichheit wird auch gezeigt dass ein autonomiebezogener Liberalismus wichtige Impulse f r eine Aufarbeitung substanzieller Fragen der feministischen politischen Philosophie erm glicht **Handbuch der Katholischen Soziallehre** Anton Rauscher,Jörg Althammer,Wolfgang Bergsdorf,Otto Depenheuer,2008 W hrend der

christliche Glaube und die kirchliche Verbundenheit vieler Menschen in Europa schwächer geworden sind haben die Erwartungen an die Katholische Soziallehre und ihre Orientierungskraft spürbar zugenommen. Es wächst das Interesse an den Begründungen der unantastbaren Würde des Menschen, der Menschenrechte und an den sozialen Ordnungsstrukturen der Gerechtigkeit und Solidarität. Wissenschaft und Technik stoßen zunehmend an ethische Grenzen und rufen bei vielen Menschen Besorgnis und Ängste statt Hoffnung und Zuversicht hervor. Rationalität und Technik, Fortschritt und Effizienz können nicht die Menschenwürde garantieren. Information allein genügt nicht. Es kommt genauso auf die Orientierung an. Das neue Handbuch der Katholischen Soziallehre ist der christlichen Menschen- und Gesellschaftsauffassung verpflichtet. Die ihrerseits in der Schöpfungsordnung und ihrer Erkennbarkeit durch die menschliche Vernunft gegründet ist. Die 81 Beiträge befassen sich vor allem mit Grundsatzfragen und Problemen der Wertorientierung in den gesellschaftlichen Lebensbereichen. In der Auseinandersetzung mit den Zeitströmungen werden überzeugende Antworten angeboten. Die Orientierung am Wesen des Menschen ist die große Chance, dass sich in einer zusammenwachsenden Welt die Menschen und Völker achten und verstehen lernen. Auf längere Sicht kann sich ein gemeinsamer Wertekodex durchsetzen, der die Zusammenarbeit und den Frieden sichert. Bedenkt man, wie sehr der Kreis der Staaten gewachsen ist, die die Menschenrechtserklärung der Vereinten Nationen des Jahres 1948 in der einen oder anderen Weise sich zu eigen gemacht haben, dann ist dies ein ermutigendes Zeichen in einer Welt, in der die Decke der Humanität immer noch dünn ist.
