Facebook Tok Trending Review:

Advances in Intelligent Systems and Digital Applications Noreddine Gherabi, Janusz Kacprzyk, Sara Arezki, 2025-08-12 This book serves as a comprehensive reference providing cutting edge knowledge on intelligent systems and digital applications. It covers theoretical foundations and significant issues in machine learning, deep learning and data analytics. Each chapter concludes with a detailed bibliography for further in depth reading. Divided into two sections: Foundations and Applications, the book offers a complete source of information on its theme. The chapters include concepts, algorithms, figures, graphs and tables to enhance readability. The target audience includes researchers, practitioners and postgraduate and graduate students developing or utilizing artificial intelligence algorithms in various applications.

Principles of Integrated Marketing Communications Lawrence Ang, 2021-02-23 Marketing in the digital age poses major challenges for traditional and established practices of communication. To help readers meet these challenges, *Principles of Integrated Marketing Communications: An Evidence based Approach* provides a comprehensive foundation to the principles and practices of integrated marketing communications (IMC). It examines a variety of traditional and digital channels used by professionals to create wide reaching and effective campaigns that are adapted for the aims of their organisations. This edition has been thoroughly revised and each chapter includes case studies of significant and award winning campaigns from both Australian and international brands that illustrate the application of explored concepts. Discussion and case study questions enable readers to critically evaluate concepts and campaigns. A managerial application section illustrates how concepts can be applied effectively in a real situation. A further thinking section expands knowledge of advanced concepts and challenges readers to think more broadly about IMC.

Global Dialogue on Media Dynamics, Trends and Perspectives on Public Relations and Communication Fong Peng Chew, 2025-01-08 This book contains the proceedings of the International Conference on Public Relations and Media Communication (PRMC) 2024, which explores the dynamic intersections of public relations and media in today's rapidly evolving landscape. It has a repository of innovative research, insightful discussions and emerging trends in digital media strategies, crisis communication, media ethics, public relations in the age of social media and the impact of emerging technologies on media practices. It touches upon a wide array of topics and provides a comprehensive overview of the latest advancements and challenges in these fields. With innovative research contributions and case studies from around the world, this book will be instructive in shaping the way we look at the world of media and ourselves. This is a highly useful guide for university professors, research scholars, writers, journalists and media professionals who wish to stay updated on the recent shifts in public relations and media communication.

Four Battlegrounds Paul Scharre, 2023-02-28 An NPR 2023 Books We Love Pick, One of the Next Big Idea Club's Must Read Books. An invaluable primer to arguably the most important driver of change for our future. P. W. Singer, author of *Burn In*, an award winning defense expert, tells the story of today's great power rivalry, the struggle to control artificial intelligence. A new

industrial revolution has begun Like mechanization or electricity before it artificial intelligence will touch every aspect of our lives and cause profound disruptions in the balance of global power especially among the AI superpowers China the United States and Europe Autonomous weapons expert Paul Scharre takes readers inside the fierce competition to develop and implement this game changing technology and dominate the future Four Battlegrounds argues that four key elements define this struggle data computing power talent and institutions Data is a vital resource like coal or oil but it must be collected and refined Advanced computer chips are the essence of computing power control over chip supply chains grants leverage over rivals Talent is about people which country attracts the best researchers and most advanced technology companies The fourth battlefield is maybe the most critical the ultimate global leader in AI will have institutions that effectively incorporate AI into their economy society and especially their military Scharre s account surges with futuristic technology He explores the ways AI systems are already discovering new strategies via millions of war game simulations developing combat tactics better than any human tracking billions of people using biometrics and subtly controlling information with secret algorithms He visits China s National Team of leading AI companies to show the chilling synergy between China s government private sector and surveillance state He interviews Pentagon leadership and tours U S Defense Department offices in Silicon Valley revealing deep tensions between the military and tech giants who control data chips and talent Yet he concludes that those tensions inherent to our democratic system create resilience and resistance to autocracy in the face of overwhelmingly powerful technology Engaging and direct Four Battlegrounds offers a vivid picture of how AI is transforming warfare global security and the future of human freedom and what it will take for democracies to remain at the forefront of the world order
