Homesick Silvia Saunders, 2025-01-30 A story of falling out of love from the winner of the Comedy Women in Print Award for fans of Monica Heisey and Dolly Alderton **Ask Your Developer** Jeff Lawson, 2021-01-12 Jeff Lawson developer turned CEO of Twilio one of Bloomberg Businessweek's Top 50 Companies to Watch in 2021 creates a new playbook for unleashing the full potential of software developers in any organization showing how to help management utilize this coveted and valuable workforce to enable growth solve a wide range of business problems and drive digital transformation From banking and retail to insurance and finance every industry is turning digital and every company needs the best software to win the hearts and minds of customers The landscape has shifted from the classic build vs buy question to one of build vs die Companies have to get this right to survive But how do they make this transition Software developers are sought after highly paid and desperately needed to compete in the modern digital economy Yet most companies treat them like digital factory workers without really understanding how to unleash their full potential Lawson argues that developers are the creative workforce who can solve major business problems and create hit products for customers not just grind through rote tasks From Google and Amazon to one person online software companies companies that bring software developers in as partners

are winning Lawson shows how leaders who build industry changing software products consistently do three things well First they understand why software developers matter more than ever Second they understand developers and know how to motivate them And third they invest in their developers success As a software developer and public company CEO Lawson uses his unique position to bridge the language and tools executives use with the unique culture of high performing creative software developers Ask Your Developer is a toolkit to help business leaders product managers technical leaders software developers and executives achieve their common goal building great digital products and experiences How to compete in the digital economy In short Ask Your Developer **Screen Digest** ,2005 PC Magazine ,2002 **How Big-Tech Barons Smash Innovation—and How to Strike Back** Ariel Ezrachi,Maurice E. Stucke,2024-05-21 Two market experts deconstruct the drivers and inhibitors to innovation in the digital economy explain how large tech companies can stifle disruption assess the toll of their technologies on our well being and democracy and outline policy changes to take power away from big tech and return it to entrepreneurs Silicon Valley s genius combined with limited corporate regulation promised a new age of technological innovation in which entrepreneurs would create companies that would in turn fuel unprecedented job growth Yet disruptive innovation has stagnated even as the five leading tech giants which account for approximately 25 percent of the S P 500 s market capitalization are expanding to unimaginable scale and power In How Big Tech Barons Smash Innovation and How to Strike Back Ariel Ezrachi and Maurice E Stucke explain why this is happening and what we can do to reverse it While many distrust the Big Tech Barons the prevailing belief is that innovation is thriving online It isn t Rather than disruptive innovations that create significant value we are getting technologies that primarily extract value and reduce well being Using vivid examples and relying on their work in the field the authors explain how the leading tech companies design their sprawling ecosystems to extract more profits while crushing any entrepreneur that poses a threat As a result we get less innovation that benefits us and more innovations that surpass the dreams of yesteryears autocracies The Tech Barons technologies which seek to decode our emotions and thoughts to better manipulate our behavior are undermining political stability and democracy while fueling tribalism and hate But it s not hopeless The authors reveal that sustained innovation scales with cities not companies and that we as a society should profoundly alter our investment strategy and priorities to certain entrepreneurs Tech Pirates and cities infrastructure Not My Problem Ciara Smyth,2021-05-25 Perfect for fans of Becky Albertalli and Nina LaCour this queer coming of age story from the author of The Falling in Love Montage is wry multilayered and unflinchingly honest Aideen has plenty of problems she can t solve But when she stumbles upon overachiever Meabh Kowalska having a full blown meltdown she sees one that she can actually fix Meabh is desperate to escape her crushing pile of extracurriculars Aideen volunteers to help by pushing her down the stairs Problem Solved Meabh s sprained ankle is the perfect excuse to ditch her overwhelming schedule But when one of their classmates learns about their little scheme more clients start asking for Aideen s help kicking off a semester of traded favors ill advised hijinks
