The Safe Standing Movement in Football Mark Turner, 2023-09-08 This book tells the important story of the 30 year social movement against all seated stadia in football in England and Wales that developed in the wake of the Hillsborough stadium disaster and the wider European and international significance of that movement Examining the fan networks relations tactics and interactions which built the Safe Standing movement this book reveals an untold social history of football supporter activism and represents an important contribution to our understanding of football supporter based social movements the sociology of football and social movement studies more broadly This book argues that Safe Standing is
