**Constraining Government** Zoltán Balázs, 2021-04-19 Moderate government is a time honored and cherished doctrine It has been considered the best solution of preventing tyranny and anarchy alike However expositions of the doctrine tend either to be entrenched by the technicalities of constitutional and public choice theory or to remain largely exhortative This book aims at providing a larger and more commonsensical defense of it It addresses the issue of moderation but within a broader perspective of reflecting on how governments have developed with inherent constraints This offers an analysis of the Antigone and Measure for Measure to discuss the necessary fall of tyranny and the problems of how to distinguish between order and disorder It is then argued that doing political theory is another important constraint on governments Even conceptions that envision an unconstrained sort of government run into difficulties and as an unintended consequence confirm the soundness of the idea that governing is an inherently constrained business The book then takes issue with the recently growing awareness associated with political realism that governing is as much a personal as an institutional activity In this context the virtue of moderation will be discussed and shown how it grows out of the experience of shame whereby we are made conscious of our limitations of control over ourselves Governing is to a large part about control and as a personal activity it preserves the centrality of shame and the insight that moderation is the best way to maintain effective control without pretending to have full control Then the book discusses three offices of government traditionally considered to be the pivotal ones the legislator the chief executive and the judge Each will be analyzed by help of three fundamental distinctions normal vs exceptional times personal vs institutional aspects and governing vs anti governing They highlight and confirm the inherent constraints of each office Finally three political conceptions of governing will be discussed ending with a reflection on the principle of the separation of powers

Modernity's Metonyms Geraldine Lawless, 2011-05-31 Modernity's Metonyms considers the representation of temporal frameworks in stories by the nineteenth century Spanish authors Leopoldo Alas and Antonio Ros de Olano Adopting a metonymic approach exploring the reiteration of specific associations across a range of disciplines from literature philosophy historiography to natural history Modernity's Metonyms moves beyond the consideration of nineteenth century Spanish literary modernity in terms of the problem of representation Through an exploration of the associations prompted by three themes the railway food and suicide it argues that literary modernity can be considered as the expression of the perception that a linear model of time bringing together the past the present and the future was fragmenting into a proliferation of simultaneous moments It draws French German American and British writers into discussion of stories by the canonical author Alas and Ros de Olano an author who is receiving increasing attention from scholars of nineteenth century Spanish literature Recent scholarship in the field of nineteenth century Spanish literature and culture has challenged the thesis of retraso the thesis that Spain lagged far behind its European neighbors Building on this scholarship this monograph incorporates shorter works of experimental prose fiction into discussions of nineteenth century

literary modernity in Spain It further expands the field by combining analysis of the writing of the canonical author Leopoldo Alas with stories by Antonio Ros de Olano whose work has been receiving increasing attention from scholars in the field Rather than thinking of these works in terms of the ways they conform to established models provided by either contemporaneous French and British works or by fin de siglo and early twentieth century Spanish literature Modernity's Metonyms works inductively *Nature* Marie Addyman, 2021 A journey through texts on about or reflecting our experience of the natural world *The January Man* Christopher Somerville, 2017-01-12 Evocatively written and charming Countryfile The January Man is a book that makes you want to pull on your boots grab a map and get out there Country Life The January Man is the story of a year of walks that was inspired by a song Dave Goulder's The January Man Month by month season by season and region by region Christopher Somerville walks the British Isles following routes that continually bring his father to mind As he travels the country from the winter floodlands of the River Severn to the lambing pastures of Nidderdale the towering seabird cliffs on the Shetland Isle of Foula in June and the ancient oaks of Sherwood Forest in autumn he describes the history wildlife landscapes and people he encounters down back lanes and old paths in rain and fair weather This exquisitely written account of the British countryside not only inspires us to don our boots and explore the 140 000 miles of footpaths across the British Isles but also illustrates how on long distance walks we can come to an understanding of ourselves and our fellow walkers Over the hills and along the byways Christopher Somerville examines what moulded the men of his father's generation so reticent about their wartime experiences so self-effacing upright and dutiful as he searches for the man inside the man that his own father really was **The Literary World** ,1894 The Oxford Magazine ,1895 **Publishers' Weekly** ,1896 **Report** Kansas.
