Rereading Capital Ben Fine, Laurence Harris, 1979 Is There a Future for Marxism? Alex Callinicos, 1982-02-01

Reading Capital's Materialist Dialectic Nick Nesbitt, 2024-05-27 While the explicit Althusserian engagement with Marx's Capital remained largely limited to Reading Capital after 1968 Nick Nesbitt argues this theoretical intervention remained insistent adopting the form of a general theory of materialist dialectic The book thus analyzes the Althusserianist theory of a materialist dialectic across diverse sites including Althusser's unpublished archive Macherey's exposition of Spinoza's Ethics and Badiou's Logics of Worlds while simultaneously bringing this fully developed theory of materialist dialectic to bear anew on the reading of Capital itself to show that Spinoza's influence on Marx is far greater and that of Hegel increasingly diminishing than has been previously thought *Althusser and Law* Laurent De Sutter, 2013 Althusser from the privatisation of Public Law to the ongoing hegemony of Commercial Law and from the discourse on Human Rights to the practice of judicial courts Is Althusser still useful in helping us to understand these struggles Does he have something to teach us about how law is produced and how it is used and misused This collection demonstrates that Althusser's ideas about law are more important and more contemporary than ever Indeed the contributors to Althusser and Law argue that Althusser offers a new and invaluable perspective on the place of law in contemporary life **A Biographical Dictionary of Dissenting**

Economists Philip Arestis, Malcolm C. Sawyer, 2001-01-01 Annotation *Globalization and the Decline of American Power* Cyrus Bina, 2022-11-23 This book explores America's decline as a global power arguing that the implosion of Pax Americana was initiated by the process of globalization preceding the collapse of the Soviet Union by nearly a decade The era of Pax Americana and with it American hegemony is conclusively passed and will not return in current global conditions There is a stark contrast between the present epoch and the postwar era of American hegemony 1945-1979 in which the United States at least outside of the Soviet sphere of influence largely managed the international economy and reigned over international politics and relations Drawing on both theoretical and empirical evidence this book shows that the era of globalization unleashed forces social political and economic which broke down the status quo of American hegemony Author Cyrus Bina also establishes that since the Iranian Revolution 1979 US involvement throughout the Middle East in Iraq Afghanistan Libya Syria Yemen and now notably in Ukraine has been motivated by the freefall of American hegemony and an attempt to get it back by direct or indirect military force Bina utilizes these contexts for wider analysis and critique of a number of theories commonly used to analyze economy polity geopolitical and dynamics of crisis and social change in capitalism This book will be of great interest to students academics and policymakers on subjects of Economics International Relations Global Studies International Political Economy Political Geography Sociology and postwar History Knowledge and Class Stephen A.
