Research And Development Management In The Chemical And Pharmaceutical Industry:

Research and Development Management in the Chemical and Pharmaceutical Peter Bamfield, 2003-09-19

Mastering management skills is hard to achieve by newcomers starting their careers in the chemical industry. The message coming from there is that good chemists swiftly have to become good managers if they are to survive and progress in today's competitive climate. This book is designed to help guide younger R D chemists to ways in which they can quickly evolve skills which are built around three factors: people, knowledge and time. It covers the management of scientific personnel management within a variety of R D organisational structures, creating a climate of innovation, the management of projects including the time management and communication aspects of the job. The author Peter Bamfield is now working as a consultant. Due to his long experience in the chemical industry, he was elected President of the Royal Society of Chemistry's Industrial Affairs Division. This second edition of the book has been revised and updated to take recent global developments and restructuring in the chemical industry into account, as well as the rising importance of information technology in management.

Research and Development in the Chemical and Pharmaceutical Industry Peter Bamfield, 2006-12-13 A guide for younger R D chemists as to how they can quickly evolve skills built around three factors: people, knowledge and time. It covers the management of scientific personnel management within a variety of R D organizational structures, creating a climate of innovation, the management of projects including the time management and communication aspects of the job. As such, it teaches the vital managerial aspects of scientific jobs in industry which are not taught at university, providing a deep and detailed insight into the intricacies of managing research. The text is divided neatly into four sections: Harnessing the Human Resource, Organising for an Innovative Environment, Creativity and Innovation, Project Management of Innovation. The author Peter Bamfield is now working as a consultant. Due to his long experience in the chemical industry, he was elected President of the Royal Society of Chemistry's Industrial Affairs Division and thus has a profound first-hand view of staff, companies and organizations in and around the industry. This third edition has been revised and updated to take into account global developments and recent changes in regulatory affairs.
