Top Movies Tricks Returns:

The Encyclopedia of Best Films Jay Robert Nash, 2019-10-23 This all inclusive A Z encyclopedia by one of the world's foremost experts on cinema provides comprehensive annotations of the best films produced from 1914 on. The work offers more than 5 000 three to five star entries: three stars good, four stars excellent, five stars masterpiece, and yes, author Jay Robert Nash has viewed every single one of them as well as many more that did not make the cut. In addition to a precis, each film's entry also includes a listing of the cast as well as the key principles involved in production from the director to the hair stylist. Especially unique to this book is a rating system that helps parents determine whether or not a film is appropriate for their children. Unlike the industry rating system which can be influenced by studio lobbying, Nash objectively evaluates each film and confers upon it one of four recommendations for viewing: recommended, acceptable, cautionary, and unacceptable. Backmatter includes a list of top films by genre, i.e. animated, drama, sports, mystery, adventure, etc., as well as an annotated name index listing all persons mentioned along with their dates of birth and death. Rounding out this essential volume for the film buff are over 500 still photos from the author's private collection.

Ghosted #12 Joshua Williamson, 2014-08-13 NEW STORY ARC Do you have a death wish? If so, there's a man out there who will grant you it.

Philosophy through Film Amy Karofsky, Mary Litch, 2020-12-06 In *Philosophy through Film*, Amy Karofsky and Mary M. Litch use recently released well received films to explore answers to classic questions in philosophy in an approachable yet philosophically rigorous manner. Each chapter incorporates one or more films to examine one longstanding philosophical question or problem and assess some of the best solutions that have been offered to it. The authors fully integrate the films into their discussion of the issues, using them to help students become familiar with key topics in all major areas of Western philosophy and master the techniques of philosophical argumentation. Revised and expanded changes to the Fourth Edition include: A brand new chapter on the mind/body problem, chapter 4, which includes discussions of substance dualism, physicalism, eliminativism, functionalism, and other relevant theories. The replacement of older movies with nine new focus films: *Ad Astra*, *Arrival*, *Beautiful Boy*, *Divergent*, *Ex Machina*, *Her*, *Live Die Repeat*, *Edge of Tomorrow*, *A Serious Man*, and *Silence*. The addition of two new primary readings to the appendix of source materials: excerpts from Patricia Smith Churchland's *Can Neurobiology Teach Us Anything about Consciousness* and Frank Jackson's *What Mary Didn't Know*. The inclusion of a Website with a Story Lines of Films by Elapsed Time for each focus film. The films examined in depth are: *Ad Astra*, *Arrival*, *Beautiful Boy*, *Crimes and Misdemeanors*, *Divergent*, *Equilibrium*, *Ex Machina*, *Gone Baby Gone*, *Her*, *Inception*, *Live Die Repeat*, *Edge of Tomorrow*, *The Matrix*, *Memento*, *Minority Report*, *Moon*, *A Serious Man*, *Silence*.
