PT - The Disciplinary Code Tomás Morales y Durán, 2025-06-05 The Code of Discipline P timokkha in p li contains 227 rules for bhikkhus and 311 rules for bhikkhuns governing their daily life their behavior but not of their practice The main objectives of the Discipline Code are To give a good image to the lay people who were the ones who supported sustained and maintained this community making it possible for them to free themselves from work and spend all their time in practice 2 Maintain discipline and harmony in the Sangha 3 Prevent morality violations These rules were read every fortnight in the assemblies of bhikkhus and bhikkhuns to purify the community and remind them of the importance of the Discipline Some rules contain moral principles but the greater part of them establish the prescriptions of the order concerning dress food ceremonies etc and the punishment incurred for their non observance punishment which in four cases consists in expulsion from the order others in probation or suspension for a determined time others in confiscation and confession and others in confession To call the bhikkhus monks is highly improper since the Buddhist order has nothing in common with the Christian orders The former lacks monasteries abbots hierarchy and vows of obedience No member of the order is a priest nor does he have the power of absolution and everyone can leave the association at any time without any formality We have already seen moreover that the rules have mainly a practical character and mark the conduct to be observed among the individuals with respect to the things held in common In any case the Code of Discipline uses this name and its derivatives in the sense of obligation or code The history of the P timokkha in India is very obscure preserved probably by the various early Buddhist schools when after six or seven centuries some Buddhists left the P li for Sanskrit they also dispensed with the P timokkha since it is also not found among the numerous sects in China and Japan that followed the doctrines of reformed Indian schools Although it was rescued by the Theravadin sect in the 12th or 13th century today it makes little sense to impose strict rules on certain individuals who want to stop working to devote themselves exclusively to the practice so that the devotees will see them as ethical and thus gain merit for supporting them materially The mendicant the bhikkhu the one who begs for food was a popular figure in India rooted since ancient times that the Buddha used to organize his Sangha of bhikkhus and his Sangha of bhikkhuns to free them from their demanding daily tasks typical of that prehistoric society Nothing to do with the present times where we have savings scholarships vacations retirement or retirement

Mindfulness, Mind-body Exercises, and Health Promotion Guodong Zhang, Yang Cao, Zi Yan, 2025-02-14 High intensity sports and physical exercise have been linked to various health benefits However when it comes to increasing longevity these activities may not be an ideal option for the general population Mind body exercise which combines physical exercise with mindfulness may be more effective in promoting and restoring health especially for those with chronic symptoms or poor health conditions Many mind body exercises such as Taichi Qigong Chan Chuang and Yoga have their roots in Eastern cultures They have gained popularity around the world and became a new fashion in the post COVID 19 era These exercises

typically help practitioners shift their focus from the outside world past or future to the present moment through gentle body movements Mind body exercises emphasize the body's innate ability to heal itself By disconnecting from the noisy outside world the body is given the opportunity to heal This aligns with the classic belief in Chinese medicine that the body itself is the best medicine     **The Body Code** Jay Cooper, Kathryn Lance, 2001-02-26 Presents four customized diet solutions based on four different genetic types in a guide that features self tests food plans and personality profiles     **Code of Federal Regulations** United States.
