Reopening Of Closure Organicism Against Itself:

Contemporary Perspectives on Architectural Organicism Gary Huafan He, Skender Luarasi, 2023-06-07 This project is born out of similar questions and discussions on the topic of organicism emergent from two critical strands regarding the discourse of organic self generation one dealing with the problem of stopping in the design processes in history and the other with the organic legacy of style in the nineteenth century as a preeminent form of aesthetic ideology The epistemologies of self generation outlined by enlightenment and critical philosophy provided the model for the discursive formations of modern urban planning and architecture The form of the organism was thought to calibrate modernism s infinite extension The architectural organicism of today does not take on the language of the biological sciences as they did in the nineteenth and twentieth centuries but rather the image of complex systems be they computational informational geo ecological or even ontological aesthetic networks What is retained from the modernity of yesterday is the ideology of endless self generation Revisiting such a topic feels relevant now in a time when the idea of endless generation is rendered more suspect than ever amid an ever increasing speed and complexity of artificial intelligence AI networks The essays collected in this book offer a variety of critiques of the modernist idea of endless growth in the fields of architecture literature philosophy and the history of science They range in scope from theoretical and speculative to analytic and critical and from studies of the history of modernity to reflections of our contemporary world Far from advocating a return to the romantic forms of nineteenth century naturphilosophie this project focuses on probing organicism for new forms of critique and emergent subjectivities in a contemporary post pandemic constellation of neo naturalism in design climate change complex systems and information networks This book will be of interest to a broad range of researchers and professionals in architecture and art history historians of science visual artists and scholars in the humanities more generally **Romantic Organicism** C.

Armstrong, 2003-06-24 Romantic Organicism attempts to reassess the much maligned and misunderstood notion of organic unity Following organicism from its crucial radicalisation in German Idealism it shows how both Coleridge and Wordsworth developed some of their most profound ideas and poetry on its basis Armstrong shows how the tenets and ideals of organicism despite much criticism remain an insistent if ambivalent backdrop for much of our current thought including the work of Derrida amongst others **Counter-figures: An Essay on Anti-metaphoric Resistance. Organising Poetry David Fairer, 2009-06-11 In this revisionary study of the poetry of Coleridge Wordsworth and their friends during the revolutionary decade David Fairer questions the accepted literary history of the period and the critical vocabulary we use to discuss it The book examines why at a time of radical upheaval when continuities of all kinds personal political social and cultural were being challenged this group of poets explored themes of inheritance retrospect revisiting and recovery Organising Poetry charts their struggles to find meaning not through vision and symbol but from connection and dialogue By placing these poets in the context of an

eighteenth century organic tradition Fairer moves the emphasis away from the language of idealist Romantic theory towards an empirical stress on how identities are developed and sustained through time Locke s concept of personal identity as a continued organisation partaking of one common life offered not only a model for a reformed British constitution but a way of thinking about the self art and friendship which these poets found valuable The key term therefore is not unity but integrity In this context of a need to sustain and organise diversity and give it meaning the book offers original readings of some well known poems of the 1790s including Wordsworth s Tintern Abbey and The Ruined Cottage and Coleridge s conversation poems The Eolian Harp This Lime Tree Bower and Frost at Midnight Organising Poetry represents an important contribution to current critical debates about the nature of poetic creativity during this period and the need to recognise its more communal and collaborative aspects Revenge of the Aesthetic Michael P. Clark,2023-11-15 This cutting edge collection of essays showcases the work of some of the most influential theorists of the past thirty years as they grapple with the question of how literature should be treated in contemporary theory The contributors challenge trends that have recently dominated the field especially those that emphasize social and political issues over close reading and other analytic methods traditionally associated with literary criticism Written especially for this collection these essays argue for the importance of aesthetics poetics and aesthetic theory as they present new and stimulating perspectives on the directions which theory and criticism will take in the future In addition to providing a selection of distinguished critics writing at their best this collection is valuable because it represents a variety of fields and perspectives that are not usually found together in the same volume Michael Clark s introduction provides a concise cogent history of major developments and trends in literary theory from World War II to the present making the entire volume essential reading for students and scholars of literature literary theory and philosophy This cutting edge collection of essays showcases the work of some of the most influential theorists of the past thirty years as they grapple with the question of how literature should be treated in contemporary theory The contributors challenge trends th **Das Fiktive und das Imaginäre** Wolfgang Iser,1991 **Zur Lyrik** Paul Celans Peter Buhrmann,2000 **The Johns Hopkins Guide to Literary Theory and Criticism** Michael Groden,Martin Kreiswirth,1994 Contains over 200 alphabetically arranged entries on the major terms movements and critics associated with the field of literary theory and criticism Metzler Lexikon Literatur- und Kulturtheorie Ansgar Nünning,2004 Kultur und literaturwissenschaftliche Theorien schie en heute wie Pilze aus dem Boden Den berblick behalten hei t die Devise Welche Konzepte sind relevant Welche Begriffe spielen eine tragende Rolle Wie haben sich die literaturgeschichtlichen Modelle entwickelt Welche Autoren pr gen die gegenw rtigen Diskurse In rund 720 kompakten Artikeln verwandeln sich abstrakte Begriffe und komplexe Modelle in gut verst ndliches Grundlagenwissen Im Mittelpunkt stehen die gro en Theorien wie z B Dekonstruktion feministische Literaturtheorie Konstruktivismus New Historicism Mentalit tsgeschichte postkoloniale Literaturkritik und Poststrukturalismus Von Aristoteles ber Derrida Foucault Greenblatt bis Hayden White von
