Rescue Of Memory:

Rescue of Memory Samuel Oliner, 2025-03-11 There is no single explanation Anyone who offers you a single explanation of why people do good things is over simplifying Empathy is very important So is courage And compassion By standers I want to impress on you are not evil people they are not people who should be put in a ship and sent to outer space They are also good human beings but they have not internalized some of the ethics of caring of social responsibility of knowing They may not have learned from moral parents role models or ethical communities that we are our brothers and sisters keepers That s what makes me so optimistic at this stage in my life In fact teaching caring compassion and altruism is possible is learnable is doable We can move millions of people from a role of neutral by stander who say Well these are not my people I am too busy It s too dangerous I don t have the time and so forth These people can be sensitized to the consequences of indifference I know it is possible to teach people to care and then we can transform the by standers perhaps into more helpers altruists and compassionate actors
