Postmodern And Political Agency:

International Postmodernism Johannes Willem Bertens, Hans Bertens, Douwe Fokkema, 1997 Containing more than fifty essays by major literary scholars International Postmodernism divides into four main sections The volume starts off with a section of eight introductory studies dealing with the subject from different points of view followed by a section that deals with postmodernism in other arts than literature while a third section discusses renovations of narrative genres and other strategies and devices in postmodernist writing The final and fourth section deals with the reception and processing of postmodernism in different parts of the world Three important aspects add to the special character of International Postmodernism The consistent distinction between postmodernity and postmodernism equal attention to the making and diffusion of postmodernism and the workings of literature in general and the focus on the text and the reader i e the reader s knowledge experience interests and competence as crucial factors in text interpretation This comprehensive study does not expressly focus on American postmodernism although American interpretations of postmodernism are a major point of reference The recognition that varying literary and cultural conditions in this world are bound to produce endless varieties of postmodernism made the editors Hans Bertens and Douwe Fokkema opt for the title International Postmodernism

The Postmodern and Political Agency Tuija Pulkkinen, 1996 *Democratic Philosophy and the Politics of Knowledge* Richard T. Peterson, 1996-04-15 Debates over postmodernism analyses of knowledge and power and the recurring issue of Heidegger s Nazism have all deepened questions about the relation between philosophy and the social roles of intellectuals Against such postmodernist rejections of philosophical theory as mounted by Rorty and Lyotard Richard Peterson argues that precisely reflection on rationality in appropriate social terms is needed to confront urgent political issues about intellectuals After presenting a conception of intellectual mediation set within the modern division of labor he offers an account of postmodern politics within which postmodern arguments against critical reflection are themselves treated socially and politically Engaging thinkers as diverse as Kant Hegel Marx Habermas Foucault and Bakhtin Peterson argues that a democratic conception and practice of philosophy is inseparable from democracy generally His arguments about modern philosophy are tied to claims about the relation between liberalism and epistemology and these in turn inform an account of impasses confronting contemporary politics Historical arguments about the connections between postmodernist thought and practice are illustrated by discussions of the postmodernist dimensions of recent politics

Presidential Leadership in Political Time Stephen Skowronek,2008 Renowned scholar Stephen Skowronek s insights have fundamentally altered our understanding of the American presidency His seminal works have identified broad historical patterns in American politics and explained the dynamics at work behind them His political time thesis has been particularly influential revealing how presidents reckon with the work of their predecessors situate their power within recent political

events and assert their authority to change things In this new book Skowronek revisits his political time thesis and focuses on how it helps us make sense of the presidencies of Bill Clinton and George W Bush The essays some of which predate his book *The Politics Presidents Make* some of which followed it and one of which is wholly original to this volume make his arguments about the politics of leadership generally accessible while also drawing them forward and highlighting new issues for our times Skowronek explains the typical political problems that presidents confront in political time as well as the likely effects of their working through them This allows him to draw out parallels in the politics of leadership between Andrew Jackson and Franklin Roosevelt and between James Polk and John Kennedy and to develop a new and revealing perspective on the leadership of George W Bush All along the way Skowronek considers contemporary innovations in the American political system that bear on the leadership patterns he draws from the more distant past The impact of the 24 hour news cycle of a more disciplined and homogeneous Republican party of conservative advocacy of the unitary theory of the executive and of progressivedisillusionment with the presidency all come under fresh scrutiny A provocative review of presidential history Skowronek s book brims with fresh insights and opens a window on the institution of the executive office and the workings of the American political system as a whole Intellectually satisfying for scholars it also provides an accessible volume for students and general readers interested in the American presidency Publisher **Sex, Machines and Navels** Fred Botting,1999 This work offers a critical re reading of fictions of humanity history technology and postmodern culture Taking psychoanalysis into cyberspace the book develops an theoretical perspective on the relationship with bodies and machines to offer a focused re examination of the notions of desire metaphor sexed identity and difference and the process of technological transformation **Archivaria** ,2001 *Contemporary Drama in English* ,2007 **Confronting Postmodernism** Milos Kokotovic,Misha Kokotovic,1997
