Postmodernism, Economics and Knowledge Stephen Cullenberg, 2001 This ground breaking volume brings together the essays of top theorists including Arjo Klamer Deirdre McCloskey Julie Nelson Shaun Hargreaves Heap and Philip Mirowski on a diverse range of topics *Postmodern Moments in Modern Economics* David F. Ruccio, Jack

Amariglio, 2016-06-28 Of all the areas of contemporary thought economics seems the most resistant to the destabilizing effects of postmodernism Yet David Ruccio and Jack Amariglio argue that one can detect within the diverse schools of thought that comprise the discipline of economics moments that defy the modernist ideas to which many economists and methodologists remain wedded This is the first book to document the existence and to explore the implications of the postmodern moments in modern economics Ruccio and Amariglio begin with a powerful argument for the general relevance of postmodernism to contemporary economic thought They then conduct a series of case studies in six key areas of economics From the idea of the multiple self and notions of uncertainty and information through market anomalies and competing concepts of value to analytical distinctions based on gender and academic standing economics is revealed as defying the modernist frame of a singular science The authors conclude by showing how economic theory would change if the postmodern elements were allowed to flourish A work of daring analysis sure to be vigorously debated *Postmodern Moments in Modern Economics* is both accessible and relevant to all readers concerned about the modernist straightjacket that has been imposed on the way economics is thought about and practiced in the world today **Introduction, Postmodernism,**

Economics, and Knowledge Jack Amariglio, Stephen Cullenberg, David F. Ruccio, 2000 **Post Keynesian Econometrics, Microeconomics and the Theory of the Firm** Sheila C. Dow, John Hillard, 2002 This is the first of two volumes celebrating Keynes contribution to economics and the development of post Keynesian economics in recent years The book is divided into three sections the first of which examines general issues including investment information labour economics and monetary theory In the second part the discussion is extended to uncertainty and addresses the associated issues of rationality trust and speculation The third and final section focuses on international economics and considers the theory of comparative advantage the fight against speculation in foreign exchange markets Tobin's transactions and the Maastricht Treaty

Társadalom És Gazdaság Közép- És Kelet-Európában, 2000 *Everyday Economic Practices as Instances of Rupture* Savvina Azim Chowdhury, 2005 Truth and Progress in Economic Knowledge Roger Backhouse, 1997 Backhouse history

and philosophy of economics U of Birmingham England believes in truth and progress but defends them against postmodern skepticism by using some of the same sources it does rather than trying to return to a prelapsarian state He concludes by doubting the success of the conventional division of labor in which economic theorists transmute general assumptions into hypotheses to be tested and econometricians test those theories statistically and establish empirical generalizations Those two functions he says must interact on a much more intimate level Some of the material is revised from previous publication
