David Herman,2001-09-28 The primal scene of all nineteenth century western thought might involve an observer gazing at someone poor most commonly on the streets of a great metropolis and wondering what the spectacle meant in human moral political and metaphysical terms For Russia most of whose people hovered near the poverty line throughout history the scene is one of special significance presenting a plethora of questions and possibilities for writers who wished to depict the spiritual and material reality of Russian life How these writers responded and what their portrayal of poverty reveals and articulates about core values of Russian culture is the subject of this book which offers a compelling look into the peculiar convergence in nineteenth century Russian literature of ideas about the poor and about the processes of art **the sunday at home**
