**Feminist Activism in the 1990s** Gabriele Griffin, 2005-11-01 Feminist activism is often taught as an historical phenomenon and many students entering courses on women's studies are not familiar with current feminist work in the field This book documents a wide variety of different forms of feminist activism in the 1990s from organisations such as Rights for Women and Southall Black Sisters to Asian Women's Work in Refuges It raises questions about the meaning of feminist activism and its interpretation within women's studies and other academic disciplines The chapters suggest against much current representation within women's studies and elsewhere that feminism is still alive With a comprehensive introduction providing an historical overview of the development of feminist activism from second wave feminism onwards this text is intended to be of use as a resource for all students of women's studies and related courses Women and Empowerment

Haleh Afshar,2016-07-27 The authors in this volume address the questions What is empowerment Is it power over resources Is it the ability to create effective demand Is it about the ability to make choices Is it about access to resources and how they are controlled politically economically by NGOs by political parties by the state Do political parties facilitate or do they channel energies away from empowerment They evaluate how in different circumstances different political agents have been seen as provider of resources     Democratic Governance, Law, and Development in Africa Maame Efua Addadzi-Koom,Michael Addaney,Lydia A. Gubrium,James A. Holstein,2001-07-25 Interviewing has become the window on the world of experience for both researchers and professionals But as familiar as interviewing is now its seemingly straightforward methodology raises more questions than ever What is the interviewer s image of those who are being interviewed Who is the interviewer in the eyes of the respondent From where do interviewers obtain questions and respondents get the answers that they communicate in interviews How do the institutional auspices of interviewing shape interview data Drawing upon leading experts from a wide range of disciplines to address these and related questions The Handbook of Interviewing offers a comprehensive examination of the interview at the cutting edge of information technology in the context of a challenging postmodern environment Encyclopedic in its breadth the Handbook provides extensive discussions of the conceptual and methodological issues surrounding interview practice in relation to forms of interviewing new technology diverse data gathering and analytic strategies and the various ways interviewing relates to distinctive respondents The Handbook is also a story that spins a particular tale that moves from the commonly recognized individual interview as an instrument for gathering data to reflections on the interview as an integral part of the information we gather about individuals and society     *Sociological Bulletin* ,1996     **Zygmunt Bauman** Peter Beilharz,2002     **Feminist Collections** University of Wisconsin System. *Women's Caring* Carol Baines,Patricia Marie Evans,Sheila M. **Feminists Negotiate the State** Cynthia R. Daniels,Rachelle Brooks,1997 As feminists demand

government action to address gender inequality they are confronted by the paradox of state power a state which promises women protection but protects the interests of men Using domestic violence against women as a case study this book examines the trade offs and compromises faced by feminists in this process of negotiating with the state Over the past twenty years feminists have won critical and significant political victories on the issue of domestic violence including funding for battered women s shelters better training for police officers and judges and legal rights in the courts Yet the state has failed to address the deeper social and economic sources of domestic violence and in many ways helps to perpetuate the masculine culture of violence which helps to produce it This book explores feminist engagements with each of the three branches of government examining the response of the Executive branch through mandatory police arrest policies the Judicial branch through the use of Battered Woman s Syndrome in the courts and the Legislative branch through analysis of the Violence Against Women Act to feminist demands for social change      *Psychology* Carole Wade,Carol Tavis,1996 The aim of this book is to encourage students to think critically and imaginatively about psychology and to apply what they learn to their own lives and the world around them Included are quick quizzes to reinforce learning      **Theories of Human Communication** Stephen W.
