**Religion Politics and the Higher Learning** Morton Gabriel White, 1978      **Religion, Politics, and the Higher Learning** Morton White, 1959      **Religion, Politics, and the Higher Learning** Morton Gabriel White,      **Divinings: Religion at Harvard** Rodney L. Petersen, 2014-09-17 Harvard has often been referred to as godless Harvard This is far from the truth Fact is that Harvard is and always has been concerned about religion This volume addresses the reasons for this The story of religion at Harvard in many ways is the story of religion in the United States This edition will clarify this relationship Furthermore the question of religion is central not only to the religious history of Harvard but to its very corporate structure and institutional evolution The volume is divided into three parts and deals with the Formation of Harvard College in 1636 and Evolution of a Republic of Letters in Cambridge First Light Chapters 1 5 Religion in the University the Foundations of a Learned Ministry and the Development of the Divinity School The Augustan Age Chapters 6 9 and the Contours of Religion and Commitment in an Age of Upheaval and Globalization Calm Rising Through Change and Through Storm Chapters 10 12 The story of the central role played by religion in the development of Harvard is a neglected factor in Harvard's history only touched upon in a most cursory fashion by previous publications For the first time George H Williamstells that story as embedded in American culture and subject to intense and continuing academic study throughout the history of the University to this day Replete with extensive footnotes this edition will be a treasure to future historians persons interested in religious history and in the development of theology at first clearly Reformed and Protestant later ecumenical and interfaith      Dictionary of Modern American Philosophers John R. Shook, 2005-01-01 The Dictionary of Modern American Philosophers includes both academic and non academic philosophers and a large number of female and minority thinkers whose work has been neglected It includes those intellectuals involved in the development of psychology pedagogy sociology anthropology education theology political science and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century Each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading While all the major post Civil War philosophers are present the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of presently obscure thinkers In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought      *Religion, Politics and the Higher Learning* Morton White, 1959      *Pragmatism and the American Mind* Morton Gabriel White, 1975 Discusses how philosophical analysis may illuminate the history of ideas as well as many of the central institutions of civilization      □□ □□□□□, 1963      Publishers' Trade List Annual, 1991 Bowker Editorial Staff, 1991-09      The Dictionary of Modern American Philosophers: R-Z John R.
