Remote Education And Informatics Teleteaching:

Remote Education and Informatics IFIP Technical Committee 3, Education, 1988 This book is the outcome of the first IFIP conference on teleteaching bringing together reports in this area from all over the world The main purpose of the conference was to prove that the only way of teaching informatics to adults which seems to be possible is by distance education The experiences and techniques as applied by some of the major long distance educational institutions are described Computer based technologies are treated extensively and from a number of new angles e g using country wide computer networks for the distribution of courseware and using WORM CD ROM technology and other new storage techniques for the distribution of educational material Important further topics include the use of television home computers interactive optical disks and expert systems for educational applications Remote Education and Informatics Frank Lovis, 1988 *World Conference on Computers in Education VI* David Tinsley, Tom J. van Weert, 2013-11-11 In this book about a hundred papers are presented These were selected from over 450 papers submitted to WCCE95 The papers are of high quality and cover many aspects of computers in education Within the overall theme of Liberating the learner the papers cover the following main conference themes Accreditation Artificial Intelligence Costing Developing Countries Distance Learning Equity Issues Evaluation Formative and Summative Flexible Learning Implications Informatics as Study Topic Information Technology Infrastructure Integration Knowledge as a Resource Learner Centred Learning Methodologies National Policies Resources Social Issues Software Teacher Education Tutoring Visions Also included are papers from the chairpersons of the six IFIP Working Groups on education elementary primary education secondary education university education vocational education and training research on educational applications and distance learning In these papers the work in the groups is explained and a basis is given for the work of Professional Groups during the world conference In the Professional Groups experts share their experience and expertise with other expert practitioners and contribute to a postconference report which will determine future actions of IFIP with respect to education J David Tinsley J van Weert Tom Editors Acknowledgement The editors wish to thank Deryn Watson of Kings College London for organizing the paper reviewing process The editors also wish to thank the School of Informatics Faculty of Mathematics and Informatics of the Catholic University of Nijmegen for its support in the production of this document *History of Computing and Education 2 (HCE2)* John Impagliazzo, 2006-07-27 These proceedings derive from an international conference on the history of computing and education This conference is the second of hopefully a series of conferences that will take place within the International Federation for Information Processing IFIP and hence we describe it as the Second IFIP Conference on the History of Computing and Education or simply History of Computing and Education 2 HCE2 This volume consists of a collection of articles presented at the HCE2 conference held in association with the IFIP 2006 World Computer Congress in Santiago Chile Articles range from a wide variety of educational and computing perspectives and represent activities from five

continents The HCE2 conference represents a joint effort of the IFIP Working Group 9.7 on the History of Computing and the IFIP Technical Committee 3 on Education The HCE2 conference brings to light a broad spectrum of issues It illustrates topics in computing as they occurred in the early days of computing whose ramifications or overtones remain with us today Indeed many of the early challenges remain part of our educational tapestry most likely many will evolve into future challenges Therefore these proceedings provide additional value to the reader as it will reflect in part the future development of computing and education to stimulate new ideas and models in educational development These proceedings provide a spectrum of interesting articles spanning many topics of historical interest
