Severe Learning Disabilities And Challenging Behaviours Designing High Quality Services:

Severe Learning Disabilities and Challenging Behaviours Eric Emerson, Peter McGill, Jim Mansell, 2013-11-11 This is a timely book The question of how to help people with challenging behaviour and how to design and manage services so that staff families and users feel that what should be done is being done is at the top of the agenda Failure to deal competently with the issue results in disaffection poor quality services and a less than optimal quality of life for service users Moreover the credibility of services for all people with learning disabilities is intimately connected with how we cope with challenging behaviour a point made recently by a Department of Health Working Group chaired by Jim Mansell Department of Health 1993 The book is welcome because it draws together what is known about the important questions from a British perspective although of course most of the underlying issues have world wide relevance The contributors while all having a good deal of experience and authority do not put forward simple portrayals of the problems nor glib solutions and this is one of the book's major strengths Clarity in the field of challenging behaviour is sometimes elusive What is presented here forces the reader to confront arguments in a rational and logical fashion *Severe Learning Disabilities and Challenging Behaviours* Peter McGill, Jim Mansell, Eric Emerson, 1999 Severe Learning Disabilities and Challenging Behaviours Eric Emerson, Peter McGill, Jim Mansell, 2014-01-15 Psychiatric and Behavioural Disorders in Developmental Disabilities and Mental Retardation Nick Bouras, 1999-06-28 Includes index **Deinstitutionalization and Community Living** Jim Mansell, Kent Ericsson, 2013-11-11 **International Review of Research in Mental Retardation** , 2001-03-19 International Review of Research in Mental Retardation is an ongoing scholarly look at research into the causes effects classification systems syndromes etc of mental retardation Contributors come from wide ranging perspectives including genetics psychology education and other health and behavioral sciences Intimate and Personal Care with People with Learning Disabilities Steven Carnaby, Paul Cambridge, 2006-05-25 This book examines aspects of care such as training ethnicity sexuality and competence in practice Topics include the nature of touch how physical contact is intended and experienced carers duty of care and risk management The book also explores management considerations of best value care standards performance monitoring and inspection **Learning Disabilities** Bob Gates, Helen Atherton, 2007-01-01 This title is directed primarily towards health care professionals outside of the United States It is the authoritative textbook for students of learning disabilities covering a wide variety of topics It is relevant not only for nursing courses but also for care workers OTs and other professional and non professional carers The new edition has been completely updated and includes the latest evidence for practice There are new chapters which means the book provides comprehensive coverage of learning disabilities throughout a person's life There are also new contributors including people with learning disabilities Each chapter is supported by information on further reading and other resources **Research to Practice?** Chris Kiernan, 1993

activity indicators inputs and processes rather than outcomes for users The need for a shift of focus within agencies routine practice is being increasingly recognized However the task is not straightforward This book offers some ways forward for people working in agencies delivering social care It examines the meaning of outcomes considers potential service contexts for measuring them and explores service users and carers views It gives an overview of measures already used in research and considers the issues involved in developing methods suitable for practice in relation to the main groups of people receiving community care services
