Digital Business Strategy: An Investigation of Generic Types, Performance Implications, and Path Dependence Hannes Kurtz, 2021-03-30 In an ever more digitized world it is necessary to embed digital technology in business strategy leading to an overarching phenomenon called the digital business strategy. Accordingly, this thesis sets out to advance the understanding of the digital business strategy concept in general as well as its influence on a company's performance. At the same time, incumbents are often constrained by path dependencies and inertia as executives tend to make use of prior experiences and favor strategic choices they are familiar with over unfamiliar ones. As a consequence, companies may stick to a specific path which restrains transformational change. Accordingly, the study elucidates the ongoing digital transformation as it manifests itself in the evolution of incumbents' digital business strategies. In addition, this thesis seeks to derive important implications for business practice as it helps practitioners to develop a better understanding of digital business strategies, especially considering that digitalization challenges the conventional wisdom of competition. This is particularly important as, with increasing digitalization, tightly integrated digital business strategies will be among the biggest determinants of a company's future success. In einer immer stärker digitalisierten Welt ist es wichtig, digitale Technologien in die Geschäftsstrategie eines Unternehmens einzubetten, was zu einem bergreifenden Phänomen führt, das als digitale Geschäftsstrategie bezeichnet wird. Dementsprechend zielt diese Arbeit darauf ab, das Verständnis des Konzepts der digitalen Geschäftsstrategie im Allgemeinen sowie dessen Einfluss auf die Performance eines Unternehmens zu verbessern. Gleichzeitig sind etablierte Unternehmen oft durch Pfadabhängigkeiten und Trägheit eingeschränkt, da Führungskräfte dazu neigen, auf frühere Erfahrungen zurückzugreifen und strategische Entscheidungen mit denen, sie vertraut sind, gegenüber unbekannten Optionen zu bevorzugen. In der Folge verharren Unternehmen auf einem bestimmten strategischen Pfad, was transformatorischen Wandel hemmt. Dementsprechend beleuchtet die Studie die laufende digitale Transformation und wie diese sich in der Entwicklung der digitalen Geschäftsstrategien etablierter Unternehmen manifestiert. Darüber hinaus versucht diese Arbeit, wichtige Implikationen für die Unternehmenspraxis abzuleiten, da sie Praktikern hilft, ein besseres Verständnis für digitale Geschäftsstrategien zu entwickeln, insbesondere in Anbetracht der Tatsache, dass die Digitalisierung die konventionelle Weisheit des Wettbewerbs herausfordert. Dies ist besonders wichtig, da mit zunehmender Digitalisierung eng integrierte digitale Geschäftsstrategien zu den größten Determinanten für den zukünftigen Erfolg eines Unternehmens gehen werden. **Global Meets Digital** Vinod Jain, 2023-06-02 The world today is at the intersection of two megatrends: Globalization and Digitalization, a business revolution unfolding in real time. Global Meets Digital captures the many nuances of this revolution succinctly, including its impact on our lives and business. An immediate implication of this revolution is that the economic principles that underpinned business and strategy for hundreds of years, such as diminishing returns to scale and resource scarcity, are no longer valid for a large and growing number of products and services. The book will challenge you to think differently, not just

about digital products but also about physical products In the global digital world products are of three kinds physical digital and smart machines products that are both physical and digital and connected to the internet a distinction missed by most books on strategy and global business The economics of each kind of products is distinct from that of the others which has strategic implications for all kinds of businesses implications such as how to compete and how to create and capture value With several mini case studies and over 100 company examples the book covers themes and cutting edge issues like the paradox of globalization digital disruption disruptive business models exponential technologies Internet of Things competition in digital markets winner take all market dynamics Industry 4.0 how to innovate strategizing for the New Normal and value creation and value capture in both B2C and B2B contexts The book derives its underpinnings from the practice of global and digital business while theory remains in the background Intended specifically for an executive professional audience Global Meets Digital should also be of value to business students and professors learning to dip their toes into a digital world Vinod Jain is an expert in global and digital strategy award winning professor Fulbright Scholar and author of an MBA textbook Global Strategy He taught at the Rutgers Business School Newark and New Brunswick and the Robert H Smith School of Business University of Maryland College Park At Maryland he was also the Founding Director of the federally funded Center for International Business Education and Research and Academic Director of Smith School's Executive MBA program in China Since leaving Maryland he has taught in China Denmark Finland Poland and India as a visiting or term professor His opinion pieces have appeared in The Washington Post The Baltimore Sun Mensa Bulletin and Economic Times and Mint India's 1 and 2 business dailies among other media In the past he worked as a middle and senior level executive with American and British multinationals Vinod has a PhD in Strategy and International Business from the University of Maryland College Park MS in Management from UCLA and MS and BS Hons in Statistics from the Indian Statistical Institute Calcutta
