Which effect does New Media have?* Angela Gubser, 2019-05-22 Master's Thesis from the year 2018 in the subject Communications Media and Politics Politic Communications language English abstract The research question of this master thesis is how the content of political ads on YouTube and on TV differs with regards to their negativity In the past few election cycles presidential campaigns have begun to integrate YouTube into existing messaging strategies which traditionally used to rely heavily on television advertising The goal is to determine whether campaign messages on YouTube should be considered as a complement to traditional means of communication or a surrogate for them In particular the differing channels are analyzed concerning their content and tone Thus it should be determined whether the tone of YouTube messages occupy a unique place in modern campaigns distinct from that of television ads Understanding how politicians use YouTube as compared to older forms of communication is crucial in order to comprehend the full campaign repertoire used by candidates and the possible differences in the types of messages i.e. more positive or negative to which citizens are exposed In terms of advertising the 2016 presidential election stands out specifically through the fact that advertising spending for television did not exceed spending in 2012 The trend during the last few election cycles has consistently indicated spending to far outpace the prior cycle in terms of dollars spent by the major party candidates Clinton's final total was far less than Obama's budget in the past two elections Her spending was almost cut in half when compared to Obama's 404 million U.S. Dollar budget in

2012 When comparing the two campaigns the Clinton campaign vastly outspent the Trump campaign in terms of TV ad buys Although the Trump campaign made up ground in the final weeks of the campaign it did not nearly reach the level of the Clinton budget in terms of overall spending By the 2nd November 2016 Clinton had already spent 211.4 million US Dollar on TV ads while Trump had spent only 74 million US Dollar about a third of Clinton's budget

Elvis Costello Dai Griffiths, 2008-07-02 Here to stay and recognized by Burt Bacharach as a great survivor Elvis Costello has produced a large and significant body of work This is the first book on Costello that avoids chronological presentation in favor of a thematic approach focused on music and words over the nearly 30 years that separate Radio Sweetheart and Country Darkness In addition to engaging with the songs Costello has performed as a rock musician the book features informed discussions of more recent albums such as Painted from Memory North and Il Sogno Also considered are the essays Costello has written to support CD reissues of his recordings a substantial body of writing that approaches a critical autobiography The book demonstrates that on all fronts music words voice instrumental resources Costello's work broadens and deepens as he sets himself the task of expanding the range of expressive material available
