thriving between wanderlust and making a home between being and becoming and about how these things inevitably converge in the scarce haphazard simple moments of right now It is both an invitation to create whatever opportunity your heart yearns for and proof that it is possible Reinvent the way you engage with the moment and explore the texture of your present tense Imagine if you could look for the present moment in a field guide the way you might look up the name of a tree you see outside your window For as long as you can remember the tree has just been a tree But when you look it up it becomes something more a sassafras maybe or a tulip maple and suddenly you can feel the way your attention toward it shifts You recognize the way its pollen gathers fine and yellow in the weft of your bedroom screen in May or the way its shade freckles the dying grass at the end of summer In the act of naming it in discovering its traits and marks the tree becomes something more to you What if you could do this for all the moments that fill your life That is what this book is about Begin Take note Be right here
