Jahrhundert eine bedeutende Rolle spielen werden Financial Times Lesen Sie dieses brillante und erst lesenswerte und inspirierende Buch bevor die Woke Cancel Culture davon erfährt Dieses Buch könnte in der heutigen unruhigen Welt nicht aktueller sein Steve Forbes Chefredakteur Forbes *Transition Economics* Peter Luke, 2012-07-26 Celebrating twenty years of transition from socialism to capitalism this book is designed to be the core textbook for undergraduate courses in transition economics and comparative economic systems Given the passage of time Transition Economics Two Decades On reviews and accounts for the outcomes in the so called transition economies and from an academic perspective takes the reader through developments and issues in the twenty years of transition from plan to market Treating its subject matter thematically the book incorporates much of the transition economics literature and evidence that have evolved over the past two decades In particular the authors focus on the most important aspects of economic transition including The initial conditions at the outset of transition Paradigms and patterns of transition The main transition policies and economic reforms The performance of transition countries and firms The lessons from transition The textbook covers a wide range of both contemporary microeconomic and macroeconomic issues in over thirty ex socialist European and Asian countries including Russia and China Transition Economics Two Decades On is more than just a book about a particular part of the world or the transformation that was experienced at a particular time in history The authors believe that the study of the economics of transition gives the reader an insight into theories policies reforms legacies institutions processes and lessons that have application and relevance beyond the specific transition from plan to market to other parts of the world and to other times in history **Der Aufstieg des Drachen und des weißen Adlers** Rainer Zitelmann, 2023-05-21 Nach 50 Jahren Entwicklungshilfe ist klar Dieses Konzept im Kampf gegen die Armut ist gescheitert Aber was hilft Rainer Zitelmann zeigt am Beispiel von Vietnam und Polen wie Nationen der Armut entkommen Beide Länder waren Opfer verheerender Kriege bei denen Millionen Menschen starben in beiden Ländern wurden sozialistische Planwirtschaften errichtet die das zerstörten was der Krieg noch nicht zerstört hatte Vietnam war eines derärmsten Länder der Welt und Polen eines derärmsten Länder Europas Zitelmann schildert in dem spannenden Buch mit vielen überraschenden Details wie Vietnam und Polen durch Wirtschaftsreformen den Kampf gegen die Armut gewannen und den Lebensstandard der Menschen sensationell verbesserten und was andere Volkswirtschaften daraus lernen können Learning from the West? Dan Hough, William E. Paterson, Sloam James, 2014-02-04 Learning from the West brings insight into political life after the collapse of communism and the fall of the Iron Curtain in the late 1980s For Communist parties and their successors CSPs the challenge was perhaps the greatest to redefine themselves within new westernised political systems As these parties sought to adapt their programmatic appeals to their new environments they searched for policies from abroad that could fit these new political

structures The political parties of Western Europe provided a rich range of programmes from which policies could be drawn This book analyses how to what extent and under what conditions external influences came to bear on the programmatic development of CSPs It argues that while some parties remain neo communist in orientation growling about the evils of capitalism on the far left of their respective political systems others have developed into social democratic actors embracing programmatic ideals that often bear a strong resemblance to those of centre left actors in Western Europe This book was previously published as a special issue of The Journal of Communist Studies and Transition Politics

Taming Leviathan Colleen Dyble,2008 In the last fifty years many aspects of socialism have been rolled back around the world Indeed in the 1990s following the collapse of communism in Central and Eastern Europe it seemed as if classical liberal ideas had triumphed But this did not happen by accident The role of free market think tanks was critical This volume draws on the experiences of thirteen authors involved in classical liberal think tanks in different parts of the world The contributors identify the strategies that have proved successful in influencing the public policy and explain how they can be adapted to local circumstances Indeed though the war of ideas has been hard fought it has been only partially won New threats to freedom have emerged including environmentalism and big government conservatism In some countries the burden taxation and regulation has never been greater Taming Leviathan is essential reading for anyone involved in the battle against resurgent collectivism
