## **Poverty Inequality And Rural Development:**

Poverty, Inequality and Rural Development David Greenaway, Tim Lloyd, Oliver Morrissey, 1994-07-12 Poverty alleviation is a major objective of development More than a fifth of the world's population lives in absolute poverty and the majority of the poor live in rural areas This volume studies what can be done for alleviating rural poverty Four chapters address the measurement of poverty and inequality including the use of household expenditure surveys and intra household income distribution Evidence is presented for India Mauritania Côte d'Ivoire and China Other chapters present case studies on strategies for rural development provision of rural credit in Bangladesh and India technical change in Philippine agriculture contract farming in Thailand and banana growers in the Windwards The contributions introduce the problems of rural development and show that effective rural development is assisted by investment in education and secure access to credit that equity is important for incentives but not directly related to poverty and that technical and institutional reform are essential but require careful design and implementation *Poverty, Inequality, and Rural Development* Tim Lloyd, Oliver Morrissey, 1994

**Economic Development: Poverty, inequality and rural development** Chris Milner, A. J. Rayner, 1992 Poverty, Inequality and Policy Gabriel Staicu, 2017-10-04 What is poverty and how do we measure it What is the link between inequality and poverty What can governments do to alleviate poverty and inequality Does economic growth reduce poverty in the long run These are some important research questions that are addressed in this book It brings together important researchers and university professors to offer some analytical insights into the field of poverty inequality and public policies Using quantitative and qualitative research methods the authors examine issues relating to a contextual academic and cognitive differences between rural and urban poverty b the impact of inequality on poverty c theoretical considerations and empirical findings about poverty and inequality with a special reference to Croatia and Pakistan d the role of trade facilitation in reducing poverty in South Asia and e the impact of trade liberalization on economic growth and poverty implications with a special reference to Sri Lanka The reader of this book will find it concise with a clearly defined research methodology and findings and easy to understand Benefiting of recent statistical data and practical experience from various countries around the world the findings and conclusions might be helpful to academia and policy makers to find better answers to poverty and inequality in the future *Poverty, Inequality, and Evaluation* Ray C. Rist, Frederic P. Martin, Ana María Fernández, 2015-10-15 The basic premise of this book is that the conversation on the future of development needs to shift from a focus on poverty to that of inequality The poverty emphasis is in an intellectual and political cul de sac It does not address the fundamental question of why people are poor nor what can be done structurally and institutionally to reduce and eliminate it The various chapters illustrate in the context of various countries and sectors around the world the significant contributions that evaluators can make in terms of improvement of the analytical framework analysis of the performance and

results of specific programs and projects as well as assessing and designing better public management systems in terms of poverty and inequality reduction Beyond the specific contributions presented three characteristics characterize those evaluations to be relevant for poverty and inequality analysis a global local approach Global to move beyond disciplinary boundaries and consider cross cutting issues local to account for the diversity of countries sectors institutions and cultures considered a problem solving orientation The issue evaluated is the core focus and determines the choice of evaluation methods to analyze this issue from a variety of angles an evolutionary approach Chapters presented are from iconoclasts who do not have any pre established theory or school of thought to defend This is the result of openness of mind and ability to adapt the analytical framework the evaluation methods and the interpretation of results in a constant interaction with the stakeholders Such characteristics make evaluation a domain that can help understand better complex issues like poverty inequality vulnerability and their interactions as well as propose a relevant and useful theory of change for public policies and projects to improve the plight of a large part of the world population in industrialized and developing countries alike
