Destruction Rites Mona Hadler, 2017-01-30 In the early sixties crowds gathered to watch rites of destruction from the demolition derby where makeshift cars crashed into each other for sport to concerts where musicians destroyed their instruments to performances of self destructing machines staged by contemporary artists Destruction in both its playful and fearsome aspects was ubiquitous in the new Atomic Age This complicated subjectivity was not just a way for people to find catharsis amid the fears of annihilation and postwar trauma but also a complex instantiation of ideological crisis in a time with some seriously conflicted political myths Destruction Rites explores the ephemeral visual culture of destruction in the postwar era and its links to contemporary art It examines the demolition derby games and toys based on warfare playgrounds situated in bomb sites and the rise of garage sales where goods designed for obsolescence and destined for the garbage heap are reclaimed and repurposed by local communities Mona Hadler looks at artists such as Jean Tinguely Niki de Saint Phalle Martha Rosler and Vito Acconci to expose how the 1960s saw destruction construction and the everyday collide as never before During the Atomic age whether in the public sphere or art museums destruction could be transformed into a constructive force and art objects and performances often oscillated between the two

War and the Arc of Human Experience Glenn Petersen, 2021-05-20 Glenn Petersen flew seventy combat missions in Vietnam when he was nineteen launching from an aircraft carrier in the Tonkin Gulf He d sought out the weighty responsibilities and hazardous work But why What did the cultural architecture of the society he grew up in have to do with the way he went to war In this book he looks at the war from an anthropological perspective because that s how he s made his living in all the subsequent years it s how he sees the world While anthropologists write about the military and war these days they do so from the perspective of researchers What makes this a fully original contribution is that Petersen brings to the page the classic methodology of ethnographers participant observation a kind of total immersion He writes from the dual perspectives of an insider and a researcher and seeks in the specifics of lived experience some larger conclusions about humans social lives in general Petersen was long oblivious to what had happened to him in Vietnam and he fears that young men and women who ve been fighting the US military s wars in Afghanistan and Iraq might be similarly unaware of what s happened to them Skills that allowed him to survive in combat in particular his ability to focus tightly on the challenges directly in front of him seemed to transfer well to life after war The same intensity led him to a successful academic career including the time he represented the Micronesian islands at the United Nations how could anything be wrong Then surreptitiously the danger the stress and the trauma he d hidden away broke through a brittle shell and the war came spilling out As an anthropologist he sees in this a classic pattern an adaptation to one set of conditions is put to a new and practical use when conditions change but in time what had once been beneficial turns into maladaptive behavior In writing about why we fight he shed lights on what the fighting does to us
