Active Learning: Theoretical Perspectives, Empirical Studies and Design Profiles Robert Cassidy, Elizabeth S. Charles, James D. Slotta, Nathaniel Lasry, 2019-07-11. This book represents the emerging efforts of a growing international network of researchers and practitioners to promote the development and uptake of evidence-based pedagogies in higher education at something of a level approaching large-scale impact. By offering a communication venue that attracts and enhances much needed partnerships among practitioners and researchers in pedagogical innovation, we aim to change the conversation and focus on how we work and learn together, i.e., extending the implementation and knowledge of co-design methods. In this first edition of our Research Topic on Active Learning, we highlight two of the three types of publications we wish to promote. First are studies aimed at understanding the pedagogical designs developed by practitioners in their own practices by bringing to bear the theoretical lenses developed and tested in the education research community. These types of studies constitute the practice pull that we see as a necessary counterbalance to knowledge push in a more productive pedagogical innovation ecosystem based on research/practitioner partnerships. Second are studies empirically examining the implementations of evidence-based designs in naturalistic settings and under naturalistic conditions. Interestingly, the teams conducting these studies are already exemplars of partnerships between researchers and practitioners who are uniquely positioned as in-betweens straddling the two worlds. As a result, these publications represent both the rigours of research and the pragmatism of reflective practice. In forthcoming editions, we will add to this collection a third type of publication: design profiles. These will present practitioner-developed pedagogical designs at varying levels of abstraction to be held to scrutiny amongst practitioners, instructional designers, and researchers alike. We hope by bringing these types of studies together in an open access format that we may contribute to the development of new forms of practitioner/researcher interactions that promote co-design in pedagogical innovation.

Resumes For Dummies Joyce Lain Kennedy, 1998-05-29. Contains tips and suggestions for creating a resume that will be noticed by prospective employers. Includes information on choosing a format, drafting a summary statement using key words.

and formatting a digital resume **Logistik als Erfolgspotenzial - The power of logistics** Martin Göbl, Andreas Froschmayer, 2019-03-29 Logistik hat eine herausragende Bedeutung für den Unternehmenserfolg erlangt. Bisher hat sich jedoch noch kein eindeutiges Verfahren etabliert, das den Wertbeitrag logistischer Entscheidungen und Veränderungen deutlich macht. Das Buch soll diese Lücke schließen. Dazu werden alle wertschöpfenden Einflussbereiche beschrieben und ein logistischer Businessplan entwickelt, der eine strukturierte Vorgehensweise zur Verbesserung der Performance eines Logistiksystems darstellt. Einige anschauliche Fallbeispiele geben zusätzliche Anregungen zur Übertragung auf die jeweilige Unternehmenssituation. Mit der zweisprachigen Darstellung Deutsch/Englisch kann dieses Buch in weltweit tätigen Unternehmen und als Lehrmaterial für international ausgerichtete Studiengänge eingesetzt werden. Logistics has become instrumental in determining corporate profitability. However, as yet, there exists no clear method that can be drawn on to illustrate the value contribution of logistics decisions and changes for business entities. This book is intended to fill that gap. It describes all value-creating spheres of influence and draws up a logistics business plan that provides a structured plan of action for improving the performance of a logistics system. Some concrete case studies provide additional suggestions for transferring the findings to the respective company situation. The dual language format German/English is intended to make the book accessible to people working in globally operating companies or those pursuing internationally oriented courses of study.
