Phenomenology, Metaphysics Or Method? Gerhard Funke, 1987      **The Experience of Atheism: Phenomenology, Metaphysics and Religion** Claude Romano, Robyn Horner, 2021-05-06 Religious and atheistic belief are presented anew in a volume of essays from leading phenomenologists in both France and the UK Atheism often presented as the negation of religious belief is here engaged with from a phenomenologically informed notion of experience The focus on experience sparks new debates in readings of belief faith and atheism as they relate to and complicate each other What unites the contributors is their relationship to phenomenology as it has developed in France in the wake of Heidegger and Husserl Leading French intellectuals from this context Jean Luc Nancy Quentin Meillassoux and Catherine Malabou amongst others contribute arresting ideas on atheistic faith the death of God and anarchic faith opening up new areas of understanding in a field whose parameters and core concepts are ever shifting Revealing the extent to which religious and atheistic belief must be seen to influence and on a fundamental level to co create one another the pluralistic society in which religious belief is counted as one option amongst many is given primacy The fact that religious faith has become not only optional but also in many contexts strangely alienated from society deeply modifies the experience of the believer as much as that of the non believer A focus on experience over and above belief moves us towards a mode of experiential knowledge which refuses to privilege the atheistic believer and deride the reality of religious belief      *Metaphysics, Phenomenology, and African Philosophy* Jim Unah, 1996      **Phenomenology 2005. Volume 1: Selected Essays from Asia, part 2** Cheung, Chan-fai, Yu, Chung-Chi, 2007-01-01      **Phenomenology World Wide** Anna-Teresa Tymieniecka, 2002 Phenomenology is the main philosophy of the 20th century now passed on to a new generation To restore its authentic vision this title proposes a return to its foundational source in Husserl's project of a universal science unpacking all its creative capacities      **Max Scheler and Phenomenology** Eugene Kelly, 1977      *A Metaphysics for the Future* Robert Allinson, 2024-11-01 This title was first published in 2001 This work is intended to serve not only as an expression of a new idea of a philosophy but as an apologia for philosophy as a legitimate and independent discipline in its own right It argues that in the 20th century truth has not been abandoned but merely modified The text proposes a return to truth and suggests that it is only after apprehending the truths of consciousness that the philosopher's mirror may become a kaleidoscope through which reality may be contemplated First order truth lies in the realm of discovery and discovery takes place only within the moment of subjective re enactment      **The Essentials of the Phenomenological Method** Herbert Spiegelberg, 1965      **The Phenomenological Approach to Philosophy, Indian and Western** Gummaraju Srinivasan, 1980      **Phenomenology as a Method and as a Philosophical Discipline** Marvin Farber, 1928      The Phenomenological Movement Herbert Spiegelberg, 1960      **International Philosophical Quarterly**, 1961      **THE PHENOMENOLOGICAL ETHICS OF MAX SCHELER**.
