Phantom Communities The Simulacrum And The Limits Of Postmodernism:

Phantom Communities Scott Durham, 1998 *Phantom Communities* reconsiders the status of the simulacrum sometimes defined as a copy of a copy but more rigorously defined as a copy that subverts the legitimacy and authority of its model in light of recent debates in literature art philosophy and cultural studies The author pursues two interwoven levels of analysis On one level he explores the poetics of the simulacrum considered as a form that internalizes repetition through close readings of a number of exemplary literary texts paintings and films from both the Anglo American and French traditions including works by Jean Genet Pierre Klossowski Ren Magritte Andy Warhol J G Ballard Balthus and Ra l Ruiz Through his readings of these works the author follows the transformations of the simulacrum showing how its vicissitudes provide an optic for remapping the postmodern canon On another level the author offers an account of the role played by the simulacrum as a theoretical concept that assumes varying analytical and ideological valences in the writings of such theorists as Jean Baudrillard Fredric Jameson Michel Foucault and Gilles Deleuze In so doing *Phantom Communities* intervenes in ongoing interdisciplinary debates concerning the historical and ideological limits of postmodernism as well as the utopian possibilities of art literature and philosophy in a postmodern context Moving between these debates and the interpretation of individual works the author shows how they converge on the fundamental aesthetic and ideological problem raised by the postmodern culture of the simulacrum imagining the virtual communities that at the margins of postmodern culture are at once figured and eclipsed by its proliferating images

The Modern Construction and Postmodern Deconstruction of Self Kire Sharlamanov, Mia Kostovska, 2025-02-21 This book aims to explain the self as understood decades ago and its evolution in the time of postmodernism Approaching it primarily from a sociological perspective while incorporating insights from psychology and philosophy it portrays the modern self as a unitary coherent unified subject created in the time of modernity which during postmodernism has evolved into a fluid decentralized and fragmented subject with increasingly independent multiple identities The creation of the modern self has been influenced by individualization rationalization and power Each factor is explored in a separate chapter detailing its impact on the development of the modern Cartesian self The authors draw on the theories of Goffman Bauman and Baudrillard to illustrate the changing nature of the self viewing it as a performer a fluid entity and a simulacrum While Goffman is not strictly a postmodern author his ideas foreshadow postmodernism particularly regarding the transformation of the self Bauman and Baudrillard as key figures in postmodern thought provide valuable insights into this transformation of the self in contemporary times The book uniquely connects two time periods in which the self evolves arguing that social factors influence its changing characteristics As these social factors shift over time so does the self Key aspects of the self and its evolution are examined through an original multidimensional approach that spans a longer time interval

Oscar Wilde and

the Simulacrum Giles Whiteley, 2017-07-05 Oscar Wilde is more than a name more than an author From precocious Oxford undergraduate to cause celebre of the West End of the 1890s to infamous criminal the proper name Wilde has become an event in the history of literature and culture Taking Wilde seriously as a philosopher in his own right Whiteley's groundbreaking book places his texts into their philosophical context in order to show how Wilde broke from his peers and in particular from idealism and challenges recent neo historicist readings of Wilde which seem content to limit his irruptive power Using the paradoxical concept of the simulacrum to resituate Wilde's work in relation to both his precursors and his contemporaries Whiteley's study reads Wilde through Deleuze and postmodern philosophical commentary on the simulacrum In a series of striking juxtapositions Whiteley challenges us to rethink both Oscar Wilde's aesthetics and his philosophy to take seriously both the man and the mask His philosophy of masks is revealed to figure a truth of a different kind the simulacra through which Wilde begins to develop and formulate a mature philosophy that constitutes an ethics of joy
