Phenomenology And Aesthetics Approaches To Comparative Literature And The Other Arts:

Phenomenology and Aesthetics M. Kronegger, 2012-12-06 and the one in the middle which judges as he enjoys and enjoys as he judges This latter kind really reproduces the work of art anew The division of our Symposium into three sections is justified by the fact that phenomenology from Husserl Heidegger Moritz Geiger Ingarden in Germany and Poland Merleau Ponty Paul Ricoeur E Levinas in France Unamuno in Spain and Tymieniecka in the United States have revealed striking coincidences in trying to answer the following questions What is the philosophical vocation of literature Does literature have any significance for our lives Why does the lyric moment present in all creative endeavors in myth dance plastic art ritual poetry lift the human life to a higher and authentically human level of the existential experience of man Our investigations answer our fundamental inquiry What makes a literary work a work of art What makes a literary work a literary work if not aesthetic enjoyment As much as the formation of an aesthetic language culminates in artistic creation the formation of a philosophical language lives within the orbit of creative imagination **Phenomenology and Aesthetics** Marlies

Kronegger, 1991 The Aesthetic Discourse of the Arts Anna-Teresa Tymieniecka, 2012-12-06 The fine arts first emerged divided by the five senses yet since their very origin they have projected aesthetic networks among themselves Music song painting architecture sculpture theatre dance distinct in themselves grew together enhancing each other In the present outburst of technical ingenuity individual arts cross all barriers as well as proliferate in kind Hence the traditional criteria of appreciation and enjoyment vanish The enlarged and ever growing field calls for new principles of appreciation and new values essential to our culture This collection initiates an inquiry into the aesthetic foundations of the fine arts Their common aesthetic nature as well as the differentiating specificities which sustain them might reveal the universal role of aesthetics in human life Studies by Paula Carabell J Fiori Blanchfield R Riese Hubert R Gray D Lipten J Parsons S Brown C Osowie Ruoff T Raczka K Karbenier and others Logos of Phenomenology and Phenomenology of the Logos. Book One Anna-Teresa Tymieniecka, 2006-06-30 During its century long unfolding spreading in numerous directions Husserlian phenomenology while loosening inner articulations has nevertheless maintained a somewhat consistent profile As we see in this collection the numerous conceptions and theories advanced in the various phases of reinterpretations have remained identifiable with phenomenology What conveys this consistency in virtue of which innumerable types of inquiry scientific social artistic literary may consider themselves phenomenological Is it not the quintessence of the phenomenological quest namely our seeking to reach the very foundations of reality at all its constitutive levels by pursuing its logos Inquiring into the logos of the phenomenological quest we discover indeed all the main constitutive spheres of reality and of the human subject involved in it and concurrently the logos itself comes to light in the radiation of its force Tymieniecka Phenomenology World-Wide Anna-Teresa Tymieniecka, 2014-11-14 Phenomenology is the philosophy of our times Through the entire twentieth century this philosophy unfolded and flourished following stepwise the intrinsic logic and dynamism of its original project as

proposed by its founder Edmund Husserl. Now its seminal ideas have been handed over to a new era. The worldwide contributors to this volume make it manifest that phenomenological inspiration knows no cultural barriers. It penetrates and invigorates not only philosophical disciplines but also most of the sectors of knowledge transforming our way of seeing the world, our actions toward others and our lives. Phenomenology's universal spread has however oftentimes diluted its original sense even beyond recognition and led to a weakening of its dynamics. There is at present an urgent need to retrieve the original understanding of phenomenology to awaken its dormant forces and redirect them. This is the aim of the present book: resourcement and reinvigoration. It is meant to be not only a reference work but also a guide for research and study. To restore the authentic vision of phenomenology we propose returning to its foundational source in Husserl's project of a universal science, unpacking all its creative capacities. In the three parts of this work there are traced the stages of this philosophy's progressive uncovering of the grounding levels of reality: ideal structures, constitutive consciousness, the intersubjective lifeworld and beyond. The key concepts and phases of Husserl's thought are here exfoliated. Then the thought of the movement's classical figures and of representative thinkers in succeeding generations is elucidated. Phenomenology's geographic spread is reviewed. We then proceed to the culminating work of this philosophy to the phenomenological life engagements so vigorously advocated by Husserl to the life-significant issues phenomenology addresses and to how it has enriched the human sciences. Lastly the phenomenological project's new horizons on the plane of life are limned: horizons with so powerful a draw that they may be said not to beckon but to summon. Here is the movement's vanguard. This collection has 71 entries. Each entry is followed by a relevant bibliography. There is a helpful Glossary of Terms and an Index of Names.

In medicine the understanding and interpretation of the complex reality of illness currently refers either to an organismic approach that focuses on the physical or to a holistic approach that takes into account the patient's human sociocultural involvement. Yet as the papers of this collection show the suffering human person refers ultimately to his/her existential sphere. Hence praxis is supplemented by still other perspectives for valuation and interpretation: ethical, spiritual and religious. Can medicine ignore

these considerations or push them to the side as being subjective and arbitrary Phenomenology philosophy of life recognizes all of the above approaches to be essential facets of the Human Condition Tymieniecka This approach holds that all the facets of the Human Condition have equal objectivity and legitimacy It completes the accepted medical outlook and points the way toward a new medical humanism
