Phenomenology And Beyond The Self And Its Language:

Phenomenology and Beyond H. A. Durfee, David F T Rodier, 1989-10-31 **BLL**, 1991 *Quellenlexikon zur deutschen Literaturgeschichte* Heiner Schmidt, 1994 **Phenomenology and the Extreme Sport Experience** Eric Brymer, Robert Schweitzer, 2017-03-27 Understanding the motivations behind those who partake in extreme sports can be difficult for some. If the popular conception holds that the incentive behind extreme sports participation is entirely to do with risking one's life, then this confusion will continue to exist. However, an in-depth examination of the phenomenology of the extreme sport experience yields a much more complex picture. This book revisits the definition of extreme sports as those activities where a mismanaged mistake or accident would most likely result in death. Extreme sports are not necessarily synonymous with risk, and participation may not be about risk-taking. Participants report deep inner transformations that influence world views and meaningfulness, feelings of coming home, and authentic integration, as well as a freedom beyond the everyday. Phenomenologically, these experiences have been interpreted as transcendent of time, other space, and body. Extreme sport participation therefore points to a more potent life-enhancing endeavour worthy of further investigation. This book adopts a broad hermeneutic phenomenological approach to critique the assumed relationship to risk-taking, the death wish, and the concept of No Fear in extreme sports, and repositions the experience in a previously unexplored manner. This is valuable reading for students and academics interested in Sports Psychology, Social Psychology, Health Psychology, Tourism, Leisure Studies, and the practical applications of phenomenology. **Existentia**, 2003 *Phenomenology as Critique* Andreea Smaranda Aldea, David Carr, Sara Heinämaa, 2022-03-29 Drawing on classical Husserlian resources, as well as existentialist and hermeneutical approaches, this book argues that critique is largely a question of method. It demonstrates that phenomenological discussions of acute social and political problems draw from a rich tradition of radically critical investigations in epistemology, social ontology, political theory, and ethics. The contributions show that contemporary phenomenological investigations of various forms of oppression and domination develop new critical analytical tools that complement those of competing theoretical approaches, such as analytics of power, critical theory, and liberal philosophy of justice. More specifically, the chapters pay close attention to the following methodological themes: the conditions for the possibility of phenomenology as critique; critique as radical reflection; and free thinking, eidetic analysis, and reflection on transcendental facticity and contingency of the self, of others, of the world, phenomenology, and immanent critique; the self-reflective dimensions of phenomenology and phenomenological analysis; and self-transformation and world transformation. All in all, the book explicates the multiple critical resources phenomenology has to offer, precisely in virtue of its distinctive methods and methodological commitments, and thus shows its power in tackling timely issues of social injustice. *Phenomenology as Critique: Why Method Matters* will appeal to researchers and advanced students working in phenomenology, Continental philosophy, and critical theory. **Radical Philosophy**, 2002 **Phenomenology**

World-Wide Anna-Teresa Tymieniecka, 2014-11-14 Phenomenology is the philosophy of our times Through the entire twentieth century this philosophy unfolded and flourished following stepwise the intrinsic logic and dynamism of its original project as proposed by its founder Edmund Husserl Now its seminal ideas have been handed over to a new era The worldwide contributors to this volume make it manifest that phenomenological inspiration knows no cultural barriers It penetrates and invigorates not only philosophical disciplines but also most of the sectors of knowledge transforming our way of seeing the world our actions toward others and our lives Phenomenology's universal spread has however oftentimes diluted its original sense even beyond recognition and led to a weakening of its dynamics There is at present an urgent need to retrieve the original understanding of phenomenology to awaken its dormant forces and redirect them This is the aim of the present book resourcement and reinvigoration It is meant to be not only a reference work but also a guide for research and study To restore the authentic vision of phenomenology we propose returning to its foundational source in Husserl's project of a universal science unpacking all its creative capacities In the three parts of this work there are traced the stages of this philosophy's progressive uncovering of the grounding levels of reality ideal structures constitutive consciousness the intersubjective lifeworld and beyond The key concepts and phases of Husserl's thought are here exfoliated Then the thought of the movement's classical figures and of representative thinkers in succeeding generations is elucidated Phenomenology's geographic spread is reviewed We then proceed to the culminating work of this philosophy to the phenomenological life engagements so vigorously advocated by Husserl to the life significant issues phenomenology addresses and to how it has enriched the human sciences Lastly the phenomenological project's new horizons on the plane of life are limned horizons with so powerful a draw that they may be said not to beckon but to summon Here is the movement's vanguard This collection has 71 entries Each entry is followed by a relevant bibliography There is a helpful Glossary of Terms and an Index of Names

Contemplative Studies and Hinduism Rita D. Sherma, Purushottama Bilimoria, 2020-10-05 This book is one of the first wide ranging academic surveys of the major types and categories of Hindu contemplative praxis It explores diverse spiritual and religious practices within the Hindu traditions and Indic hermeneutical perspectives to understand the intricate culture of meditative communion and contemplation devotion spiritual formation prayer ritual and worship The volume extends and expands the conceptual reach of the fields of Contemplative Studies and Hindu Studies The chapters in the volume cover themes in Hindu contemplative experience from various texts and traditions including classical S khya and Patanjali Yoga the Bhagavata Purana the role of S dhana in Advaita Vedanta r vidy and the r cakra the body in Tantra the semiotics and illocution of Gauya Vairava's dhana mantra in M m's Vairava liturgy as well as cross cultural reflections and interreligious comparative contemplative praxis The volume presents indigenous vocabulary and frameworks to examine categories and concerns particular to the Hindu contemplative traditions It traces patterns that cut across Hindu traditions and systems and discusses contrasting methods of different theological philosophical schools evincing a strong plurality in Hindu religious thought and

practice The volume provides intra religious comparisons that reveal internal complexity nuances and a variety of contemplative states and transformative practices that exist under the rubric of Hindu practices of interiority and reflection With key insights on forms and functions of the contemplative experience along with their theologies and philosophies the volume suggests new hermeneutical directions that will advance the field of contemplative studies This book will be useful to scholars and researchers of religious and theological studies contemplative studies Hindu studies consciousness studies yoga studies Indian philosophy and religion sociology of religion philosophy of religion comparative religion and South Asian studies as well as general readers interested in the topic
