Sibling Matters Debbie Hindle,Susan Sherwin-White,2018-04-24 This original book gives a timely exploration of the importance of sibling relationships from a multi disciplinary perspective It presents for the first time an account of the work on brothers and sisters by Sigmund Freud Melanie Klein and Anna Freud whose pioneering and vital work on sibling issues has not been systematically examined before It also explores the important contributions to our understanding of siblings from developmental research systemic therapy and attachment theory Through infant observation and clinical work with children and young people the book reveals the ways in which sibling relationships can be illuminated by these different perspectives The book aims to stress the importance of multi disciplinary thinking and to encourage further an interface between psychoanalytic thinking and other disciplines It is a must for clinicians and other professionals working with children and families and of interest too to the general reader

Enduring Bonds Mary Renck Jalongo,2007-11-24 Mary Renck Jalongo Interpersonal relationships present an interesting paradox to the young child Although human bonds are a source of love security and joy they are at the same time the context in which children feel intense and complicated emotions such as jealousy shame resentment sorrow and rage To illustrate consider a series of incidents in the life of a young child named Melissa All of these events were so memorable that they became oft repeated family stories At age 4 after Melissa was reprimanded by her mother she packed a small plastic suitcase and announced that she was running away Her mother kept a watchful eye while the preschooler stood at the end of the driveway for several moments The child s sister eight years her senior decided to go out and gently inquire about her younger sibling s plans to which Melissa responded ruefully I can t run away I remembered that I m not allowed to cross the street by myself Months later Melissa enters kindergarten and she arrives home at the end of her school day obviously upset When asked about it she says One of the kids told me I was doing my work wrong and it ruined my whole day In first grade Melissa has experience with one of the school child s greatest fears a mean teacher
