Dolensek, Barbara Burn, 1976 [Catalog of Copyright Entries. Third Series](#) Library of Congress. Copyright Office, 1978 **Thinking Animals** Paul Shepard, 2011-07-01 In a world increasingly dominated by human beings the survival of other species becomes more and more questionable In this brilliant book Paul Shepard offers a provocative alternative to an us or them mentality proposing that other species are integral to humanity's evolution and exist at the core of our imagination This trait he argues compels us to think of animals in order to be human Without other living species by which to measure ourselves Shepard warns we would be less mature care less for and be more careless of all life including our own kind *Political Animals* Jesse Donahue, Erik Trump, 2007-01-01 Political Animals offers a unique study and perspective on the relationship between politics and the art found in American zoos and aquariums Jesse Donahue and Erik Trump examine the ways that zoos and aquariums have successfully served as sculptural gardens for the masses and have incorporated art and architecture that convey political messages about both the patrons and the animals This book demonstrates how art has been used for a range of economic and political purposes including providing jobs a medium to reach out to minority interest groups a fundraising tool and a surrogate for the animals themselves Donahue and Trump skillfully analyze and compare zoos to other areas of public art to highlight the calculated strategies on the part of the zoos that have incorporated a range of artistic styles for different audiences Incorporating photographs of zoo and aquarium art from around the country Political Animals is an exciting and captivating text for the mind and eye [Between Pets and People](#) Alan M. Beck, Aaron Honori Katcher, 1996 Since the first edition of *Between Pets and People* in 1983 the authors then startling contention that pets benefit our mental and physical health has found wide acceptance Evidence in our daily lives in television pet food ads in doctor's offices outfitted with aquaria attests to how

widely the belief in pets therapeutic influence is now held This revised edition of Between Pets and People with additional data and case studies and expanded references including a listing of Internet resources and a foreword by Elizabeth Marshall Thomas analyzes the surprisingly complex relationships we have with our pets This book contains an important lesson for everyone to accept ourselves and others in the uncritical way that pets accept us and come to terms with our own animal nature **Journal of the American Veterinary Medical Association** ,1996 **A Pet Or Not?** Alvin Silverstein,Laura Silverstein Nunn,1999 Discusses the pros and cons of owning exotic pets such as armadillos llamas monkeys potbellied pigs and sugar gliders and offers advice on their care feeding and emotional support **Letter to Libraries** ,1976
