Practical Judgments Mark Kingwell, 2004-01-01 This collection of essays and reviews reveals the sources and developments of popular Toronto philosopher and cultural theorist Mark Kingwell's thought and examines the nature and limits of intellectual engagement **The Interiors Theory Primer** William Mangold, 2025-07-31 In a world where life is increasingly defined by the spaces we inhabit understanding interiors is essential to understanding ourselves The Interiors Theory Primer maps the intellectual terrain of interior design and spatial experience introducing readers to key concepts that shape how people occupy interior spaces Organized into three parts this book begins with foundational concerns such as place identity materiality and atmosphere and then examines the boundaries and expertise of the discipline before turning to critical and emerging topics like biophilia virtuality and social justice Each chapter presents a focused literature review of a major theme in interiors theory supported by key design precedents and suggestions for further reading Drawing on a wide range of scholarship The Interiors Theory Primer offers a coherent framework for understanding interiors as a distinct interdisciplinary field deeply embedded in the human condition Accessible to students useful to professionals and provocative for scholars The Interiors Theory Primer argues that the designed environments in which we live work and gather deserve greater attention not only for their aesthetic and functional qualities but also for their powerful role in shaping contemporary Information Systems Research Bonnie Kaplan, Duane P. Truex, David Wastell, A. Trevor Wood-Harper, Janice I. DeGross, 2006-04-11 Information Systems Research Relevant Theory and Informed Practice comprises the edited proceedings of the WG8 2 conference Relevant Theory and Informed Practice Looking Forward from a 20 Year Perspective on IS Research which was sponsored by IFIP and held in Manchester England in July 2004 The conference attracted a record number of high quality manuscripts all of which were subjected to a rigorous reviewing process in which four to eight track chairs associate editors and reviewers thoughtfully scrutinized papers by the highly regarded as well as the newcomers No person or idea was considered sacrosanct and no paper made it through this process unscathed All authors were asked to revise the accepted papers some more than once thus good papers got better With only 29 percent of the papers accepted these proceedings are significantly more selective than is typical of many conference proceedings. This volume is organized in 7 sections with 33 full research papers providing panoramic views and reflections on the Information Systems IS discipline followed by papers featuring critical interpretive studies action research theoretical perspectives on IS research and the methods and politics of IS development Also included are 6 panel descriptions and a new category of bright idea position papers 11 in all wherein main points are summarized in a pithy and provocative fashion **International Bibliography Of** Sociology 2003/Bibliographie Internationale Des Sciences Sociales Compiled by the British Library of Political and Economic Science, Jean Sykes, 2004-12 First published in 1952 the International Bibliography of the Social Sciences anthropology economics political science and sociology is well established as a major bibliographic reference for students
