Manning, 2015-06-12 Excerpt from *Practical Spanish Grammar With Exercises and Themes* The following pages written at first for my classes in Cornell University are now handed over to the public in the hope that they may be of some help in introducing others as well as college students to the Spanish language and literature My aim has been to write a practical grammar and so far as college students are concerned one that may be tolerably well mastered leaving time for reading about 150 ordinary duodecimo pages of Spanish in one college year provided two recitations per week are devoted to it My own custom has been to have the students learn the advance lesson only so thoroughly as to be able to write out the theme to have them put the theme on the board to correct it myself having the students correct their themes as I indicate mistakes and state reasons for changes and on the review next time we meet to give without book or theme the Spanish for the English as well as the English for the Spanish on my reading the sentences aloud A part at least of the Spanish reading lessons was also translated on review as above from hearing me read the Spanish This method seemed to work admirably at Cornell but is given here simply for such teachers as may not have a definite and possibly better method of their own About the Publisher
