Pragmatism And Other Essays:

Pragmatism William James, 1963 *Pragmatism and Other Essays* William James, 1983-02-02 The Thirteen Pragmatisms and Other Essays Arthur O. Lovejoy, 2019-12-01 Originally published in 1963 The essays in this volume are critical and with one exception directed against the philosophic movement of pragmatism The Thirteen Pragmatisms is an exercise in logical analysis and is a challenge to a group of philosophers who have taken on a collective name to show how their apparent diversities are to be reconciled Few philosophers would call themselves orthodox followers of this train of thought so these essays can be studied without a sense of personal injury that deadens the critical faculty and obscures insight In The Thirteen Pragmatisms and Other Essays logical technique is on display the author's keenness in spotting double meanings and his ability to rephrase them in univalent form This collection of essays should afford students of philosophy a set of cases in which they need not take sides but which give them an analytical method they can practice themselves on contemporary issues The fact that these essays are on the whole critical gives them a heuristic value that dogmatic or expository essays would not have Enzyklopädie Philosophie und Wissenschaftstheorie Jürgen Mittelstraß, 2024-06-26 Die Enzyklopädie Philosophie und Wissenschaftstheorie das größte allgemeine Nachschlagewerk zur Philosophie im deutschsprachigen Raum wurde 1980 begonnen und 1996 mit dem vierten Band abgeschlossen Sie erschien 2005 bis 2018 in einer komplett aktualisierten und erweiterten 8 bändigen Neuauflage die hiermit nun in einer kartonierten Sonderausgabe vorliegt Die Enzyklopädie umfasst in Sach- und Personenartikeln nicht nur den klassischen Bestand des philosophischen Wissens sondern auch die neuere Entwicklung der Philosophie insbesondere in den Bereichen Logik Erkenntnis und Wissenschaftstheorie sowie Sprachphilosophie Zugleich finden Grundlagenreflexionen in den Wissenschaften und deren Geschichte ausführliche Berücksichtigung Die umfassenden Bibliographien und Werkverzeichnisse wurden für die 2. Auflage in allen Artikeln auf den neuesten Stand gebracht **The Influence of Darwin on Philosophy and Other Essays in Contemporary Thought** John Dewey, 2007 This critical edition of The Influence of Darwin on Philosophy and Other Essays in Contemporary Thought presents the results of John Dewey's patient construction throughout the previous sixteen years of the radically new view of the methods and concerns of philosophical inquiry It was a view that he continued to defend for the rest of his life **Pragmatism and Other Essays** William James, 1963 *Quine, Conceptual Pragmatism, and the Analytic-Synthetic Distinction* Robert Sinclair, 2022-08-01 W V Quine's occasional references to his pragmatism have often been interpreted as suggesting a possible link to the American Pragmatism of Peirce James and Dewey Quine Conceptual Pragmatism and the Analytic Synthetic Distinction argues that the influence of pragmatism on Quine's philosophy is more accurately traced to his teacher C I Lewis and his conceptual pragmatism from Mind and the World Order and his later An Analysis of Knowledge and Valuation Quine's epistemological views share many affinities with Lewis's conceptual pragmatism where knowledge is conceived as a conceptual framework pragmatically revised in light of what future

experience reveals Robert Sinclair further defends and elaborates on this claim by showing how Lewis's influence can be seen in several key episodes in Quine's philosophical development. This not only highlights a forgotten element of the epistemological backdrop to Quine's mid-century criticism of the analytic-synthetic distinction but Sinclair further argues that it provides the central epistemological framework for the form and content of Quine's later naturalized conception of epistemology.

Pragmatism and other essays, 1970 *Communicative Pragmatism* Nicholas Rescher, 1998-09-03 In this pioneering study of communicative conventions distinguished philosopher Nicholas Rescher focuses on the principles at work in the communicative use of language. Rescher explores various aspects of explanatory and expository uses of language across a wide range of applications ranging from the factual to the fictional and from the expository to the literary. A unifying theme of the book is pragmatic conventionality. Rescher explores the fundamentally pragmatic conception of communicative conventions, rules of procedure that form part of the setting of tacit undertakings that function in various sectors of communicative practice. Only in this setting, he argues, can one achieve an adequate understanding of the way in which the business of communication is actually carried on within its wider setting of its service in the conduct of human affairs.

Pantheistic Dilemmas and Other Essays in Philosophy and Religion Henry Clay Sheldon, 1920 *Pragmatism and other Essays, with an introduction by Joseph L. Blau* William James, 1970 Pragmatic Philosophy of Religion Ulf Zackariasson, 2022-02-25 In *Pragmatic Philosophy of Religion: Melioristic Case Studies* Ulf Zackariasson argues for the fruitfulness of pragmatic philosophy of religion by bringing it to bear on a number of classical topics within the contemporary philosophy of religion. Zackariasson first outlines a version of pragmatic philosophy of religion that takes the pragmatic insistence on the primacy of practice to heart. Here he shows that religious traditions and their secular counterparts transmit a number of paradigmatic responses that adherents can draw on in their encounters with human life's existential contingencies. He further discusses the upshot of this approach for how we think of miracles, religious diversity, and what it is to be religiously mistaken. In each case Zackariasson shows that a pragmatic approach offers important novel perspectives and insights that contemporary, primarily analytic, philosophy of religion tends to neglect. By relating to debates and well-known positions within the contemporary philosophy of religion, he also makes these novel perspectives and insights concrete for those who are not already committed pragmatists. The case studies thus serve as invitations to constructive dialogue within an increasingly pluralistic philosophy of religion.

Randolph Bourne and the Politics of Cultural Radicalism Leslie J. Vaughan, 1997 Reassesses the short life and career of American essayist, critic, and founder of cultural radicalism. Bourne (1886-1918) is known today mostly for his opposition to US military involvement in Europe and warnings about the military-industrial complex. Vaughan, political science U of Minnesota Duluth, argues that his stance from outside establishment perspectives was not a retreat from politics as many have claimed but a form of political engagement free from the suppositions that impede genuine debate and democratic change.
