Regionalism And Reform Art And Class Formation In Antebellum Cincinnati:

Regionalism and Reform Wendy Jean Katz, 2002 Before the Civil War Cincinnati Ohio was considered the most important art center of what was then regarded as the U S West In this book Wendy Jean Katz explores the role of artists and art associations in moral and social reform in antebellum Cincinnati Its leaders claimed for it the status of the future geographic and economic center of the nation and supported art as part of their effort to forge a regional vision of morals and manners attractive enough to persuade their adoption nationally BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *The Grove Encyclopedia of American Art* Joan M. Marter, 2011 Arranged in alphabetical order these 5 volumes encompass the history of the cultural development of America with over 2300 entries Race and Racism in Nineteenth-Century Art Naurice Frank Woods Jr., 2021-06-28 Painters Robert Duncanson ca 1821 1872 and Edward Bannister 1828 1901 and sculptor Mary Edmonia Lewis ca 1844 1907 each became accomplished African American artists But as emerging art makers of color during the antebellum period they experienced numerous incidents of racism that severely hampered their pursuits of a profession that many in the mainstream considered the highest form of social cultivation Despite barriers imposed upon them due to their racial inheritance these artists shared a common cause in demanding acceptance alongside their white contemporaries as capable painters and sculptors on local regional and international levels Author Naurice Frank Woods Jr provides an in depth examination of the strategies deployed by Duncanson Bannister and Lewis that enabled them not only to overcome prevailing race and gender inequality but also to achieve a measure of success that eventually placed them in the top rank of nineteenth century American art Unfortunately the racism that hampered these three artists throughout their careers ultimately denied them their rightful place as significant contributors to the development of American art Dominant art historians and art critics excluded them in their accounts of the period In this volume Woods restores their artistic legacies and redeems their memories introducing these significant artists to rightful new audiences **Ecocriticism and the Anthropocene in Nineteenth-Century Art and Visual Culture** Maura Coughlin, Emily Gephart, 2019-09-06 In this volume emerging and established scholars bring ethical and political concerns for the environment nonhuman animals and social justice to the study of nineteenth century visual culture They draw their theoretical inspiration from the vitality of emerging critical discourses such as new materialism ecofeminism critical animal studies food studies object oriented ontology and affect theory This timely volume looks back at the early decades of the Anthropocene to query the agency of visual culture to critique create and maintain more resilient and biologically diverse local and global ecologies **Humbug!** Wendy Jean Katz, 2020-02-04 One of Hyperallergic's Top Ten Art Books for 2021 Approximately 300 daily and weekly newspapers flourished in New York before the Civil War A majority of these newspapers even those that proclaimed independence of party were motivated by political conviction and often local conflicts Their editors and writers jockeyed for government office and influence Political infighting and their

related maneuvers dominated the popular press and these political and economic agendas led in turn to exploitation of art and art exhibitions Humbug traces the relationships class animosities gender biases and racial projections that drove the terms of art criticism from the emergence of the penny press to the Civil War The inexpensive penny papers that appeared in the 1830s relied on advertising to survive Sensational stories satire and breaking news were the key to selling papers on the streets Coverage of local politicians markets crime and personalities including artists and art exhibitions became the penny papers lifeblood These cheap papers though unquestionably part of the period s expanding capitalist economy offered socialists working class men bohemians and utopianists a forum in which they could propose new models for American art and society and tear down existing ones Arguing that the politics of the antebellum press affected the meaning of American art in ways that have gone unrecognized Humbug covers the changing politics and rhetoric of this criticism Author Wendy Katz demonstrates how the penny press s drive for a more egalitarian society affected the taste and values that shaped art and how the politics of their art criticism changed under pressure from nativists abolitionists and expansionists Chapters explore James Gordon Bennett s New York Herald and its attack on aristocratic monopolies on art the penny press s attack on the American Art Union an influential corporation whose Board purchased artworks from living artists exhibited them in a free gallery and then distributed them in an annual five dollar lottery expos s of the fraudulent trade in Old Masters works and the efforts of socialists freethinkers and bohemians to reject the authority of the past

Regionalism and the Humanities Timothy R. Mahoney, Wendy Jean Katz, 2008 Although the framework of regionalist studies may seem to be crumbling under the weight of increasing globalization this collection of seventeen essays makes clear that cultivating regionalism lies at the center of the humanist endeavor With interdisciplinary contributions from poets and fiction writers literary historians musicologists and historians of architecture agriculture and women this volume implements some of the most innovative and intriguing approaches to the history and value of regionalism as a category for investigation in the humanities In the volume s inaugural essay Annie Proulx discusses landscapes in American fiction comments on how she constructs characters and interprets current literary trends Edward Watts offers a theory of region that argues for comparisons of the United States to other former colonies of Great Britain including New Zealand Australia and Canada Whether considering a writer s connection to region or the idea of place in exploring what is meant by regionalism these essays uncover an enduring and evolving concept Although the approaches and disciplines vary all are framed within the fundamental premise of the humanities the search to understand what it means to be human

Seeing America University of Rochester. Memorial Art Gallery, 2006 A stunning full color volume that examines 82 pieces in the University of Rochester

Memorial Art Gallery's American collection and their connections to American history culture literature and politics Seeing America is the first ever catalog of the University of Rochester Memorial Art Gallery's American collection Founded in 1913 the Memorial Art Gallery was created in conjunction with the University of Rochester so that it would function within a scholarly milieu yet at the same time perform service as a community museum From its conception it has been an ardent advocate for American art which so many counterpart institutions snubbed until at least the 1930s and more often until well after World War II in favor of European and Asian art The 336 page full color volume examines 82 objects and their connections to American history culture literature and politics The 73 articles present a running commentary on each piece by knowledgeable and thoughtful contemporary scholars and artists writing with expertise and insight ultimately presenting a new and deeper understanding that enhances the reader viewer's appreciation of the work The tour ranges from Colonial times to the twenty first century from Maine to Florida to the far West from mighty historical subjects to intimate byways from august figures and events to the humblest and most anonymous The diversity of American experience on display here reminds us that the best American art is inextricably bound up with the essential truths of American experience *Mightier than the Sword* David S. Reynolds, 2012-06-11 Fascinating a lively and perceptive cultural history Annette Gordon Reed The New Yorker In this wide ranging brilliantly researched work David S Reynolds traces the factors that made Uncle Tom's Cabin the most influential novel ever written by an American Upon its 1852 publication the novel's vivid depiction of slavery polarized its American readership ultimately widening the rift that led to the Civil War Reynolds also charts the novel's afterlife including its adaptation into plays films and consumer goods revealing its lasting impact on American entertainment advertising and race relations *The Plunder of Black America* Calvin Schermerhorn, 2025-02-11 The long history of the racial wealth gap in America told through the stories of seven Black families who struggled to build wealth over multiple generations Wealth is central to the American pursuit of happiness and is an overriding measure of well being Yet wealth is conspicuously absent from African American households Why do some 3.5 million Black American families have zero or negative wealth Historian Calvin Schermerhorn traces four hundred years of Black dispossession and decapitalization what Frederick Douglass called plunder through the stories of families who have strived to earn and keep the fruits of their toils Their struggles reveal that the ever evolving strategies to strip Black income and wealth have been critical to sustaining a structure of racialized disadvantage These accounts also tell of the quiet heroism of those who worked to overcome obstacles and defy the plunder From the story of Anthony and Mary Johnson abducted from Angola and brought to Virginia in 1619 to the enslaved Black workers dispossessed by the Custis Washington family to Venture Smith born Brothier Furro who purchased his freedom to three generations of a family enslaved in the South who moved north after Emancipation to the Tulsa massacre and the subprime lending crisis Schermerhorn shows that we cannot reckon with today's racial wealth inequality without understanding its unrelenting role in American history Nineteenth-century Studies ,2007 **The**

Cultured Canvas Nancy Siegel, 2011 A state of the field collection opening new vistas in the study of nineteenth century American landscapes **Frontiers**, 2008 *The Book Review Digest*, 2004 *A Little More Freedom* Jack S. Blocker, 2008 Why did African Americans move from the rural South to the metropolitan North Scholars have shown that African Americans took part in the urbanization of American society between the Civil War and the Great Depression but the racial dimensions of their migration have remained unclear *A Little More Freedom* is the first study to trace African American locational choices during the crucial period when migrants created pathways that would shape mobility through the twentieth century and beyond This book identifies an age of the village for black Midwesterners when Civil War and postwar migrants distributed themselves evenly across the urban hierarchies of the region Using four case studies of Washington Court House Ohio Springfield Ohio Springfield Illinois and Muncie Indiana Blocker shows what life was like for African Americans in small towns and small cities thus illuminating the reasons why most blacks ultimately chose to leave such places in favor of metropolitan centers such as Chicago Indianapolis and Cleveland Previous scholars have emphasized the role of racist white violence as the catalyst but *A Little More Freedom* takes a more nuanced approach Emphasis upon racist violence and Jim Crow has inadvertently tended to portray African Americans as victims and their migrations as flight from danger and oppression While not downplaying white racism *A Little More Freedom* tries to recreate the threats and opportunities in urban places of different sizes as seen through the eyes of migrants **Sentimental Journey** Lisa Maria Strong, 2008 Alfred Jacob Miller 1810 1874 was the first artist to journey into the heart of the Rocky Mountains He did so as the commissioned expedition artist for William Drummond Stewart 1795 1871 a Scottish nobleman and veteran of a five year hunting tour in America Their destination would be the annual fur traders rendezvous at Horse Creek near the present day border of Colorado and Wyoming Miller Stewart and the rest of their party departed from Independence Missouri in mid May 1837 They arrived at the rendezvous two months later and after a week among the trappers and traders headed into the Wind River Mountains to the source of the Green River There they spent the waning summer hunting moose and elk before returning to St Louis in early October Miller executed some one hundred watercolor and pen and ink sketches during the expedition and he later reworked them into finished watercolors and oils for a variety of patrons Over the past two decades much valuable scholarship has emerged on how western American art has reflected American nationalist or expansionist ideologies In *Sentimental Journey The Art of Alfred Jacob Miller* Lisa Strong takes a new approach however by examining how Miller tailored his western scenes to suit the specific needs and interests of local American audiences She also crosses national boundaries to explore how Miller's paintings helped promote a vision of Scottish aristocratic identity **Gateway**, 2005 *The Art Bulletin*, 2004 Includes section Notes and reviews **America, History and Life**, 2006 Article abstracts and citations of reviews and dissertations covering the United States and Canada **A Fatal Drifting Apart** Laura M.
