Max Streaming Review Tutorial:

Power, Surveillance, and Culture in YouTube™'s Digital Sphere Crick, Matthew, 2016-01-18 Over the last several years YouTube has become a public forum for creative informative and political endeavors around the globe As the website's influence and appeal continues to grow questions regarding the legal usage of material as well as potential governance issues regarding surveillance and political sway are becoming more relevant Power Surveillance and Culture in YouTube's Digital Sphere examines the imaginative socioeconomic and innovative features of the video sharing community of YouTube and how these areas traverse the digital world Highlighting theoretical concepts and empirical research as well as in depth discussions on cultural studies participatory experience and media theory this publication will appeal to professionals practitioners researchers and students interested in the use of video sharing as a means of surveillance communication or personal promotion

Reasserting the Disney Brand in the Streaming Era Robert Alan Brookey, Jason Phillips, Timothy Pollard, 2023-04-07 Reasserting the Disney Brand in the Streaming Era investigates the evolution of the Disney brand at a pivotal moment the move from content creation to acquisition and streaming and how the company reasserted its brand in a changing marketplace Exploring how Disney's acquisition of Pixar Marvel Lucasfilm and Fox positioned the company to launch the Disney streaming service the chapters look at the history of those acquisitions and the deployment of the content brands and intellectual property from those acquisitions through an analysis of the original content that appeared on Disney Offering a focused investigation of how the content offered from these various media brands was adapted for Disney so that it reflects the Disney brand the authors illustrate through close textual analysis how this content reflects elements of the Classic Disney Style The analysis positions these texts in relation to their industrial contexts while also identifying important touchstone texts both television and film in Disney's catalog This comprehensive and thoughtful analysis will interest upper level students and scholars of media studies political economy Disney studies media industries and new technology

De Gruyter Handbook of Media Technology and Innovation Richard A. Gershon, 2025-01-27 The De Gruyter Handbook of Media Technology and Innovation brings together scholars from around the world to provide key insights on emerging technology trends and issues related to the fields of media management information technology product design planning and digital lifestyle This handbook is about the power of good ideas It's about those business enterprises government planners educators and entrepreneurs that have harnessed the power of good ideas to become real difference makers in the world we live in Keeping pace with fast paced technology change requires ongoing assessment and reassessment of the media management and technology fields to address important questions and emerging issues A major premise of this book is that given the complex and ever changing state of media technology we have a responsibility and obligation to engage in a broader interdisciplinary dialogue whose purpose is to understand the current and future state of media technology and innovation as well as to appreciate the social impact that such technologies have on business education and the general public Forecasting

the future as any weatherperson or stock broker can tell you is a risky business But in this book we use the phrase the creative next step as a way to talk about the future and what we can expect in terms of the opportunities and challenges going forward *Computer Vision* Md Atiqur Rahman Ahad, Upal Mahbub, Matthew Turk, Richard Hartley, 2024-07-30 Computer vision has made enormous progress in recent years and its applications are multifaceted and growing quickly while many challenges still remain This book brings together a range of leading researchers to examine a wide variety of research directions challenges and prospects for computer vision and its applications This book highlights various core challenges as well as solutions by leading researchers in the field It covers such important topics as data driven AI biometrics digital forensics healthcare robotics entertainment and XR autonomous driving sports analytics and neuromorphic computing covering both academic and industry R D perspectives Providing a mix of breadth and depth this book will have an impact across the fields of computer vision imaging and AI Computer Vision Challenges Trends and Opportunities covers timely and important aspects of computer vision and its applications highlighting the challenges ahead and providing a range of perspectives from top researchers around the world A substantial compilation of ideas and state of the art solutions it will be of great benefit to students researchers and industry practitioners

Cooperative Environments for Distributed Systems Engineering Khalil Drira, Andrea Martelli, Thierry Villemur, 2003-06-30 The engineering life cycle for complex systems design and development where partners are dispersed in different locations requires the set up of adequate and controlled processes involving many different disciplines The design integration and the final system physical functional integration and qualification imply a high degree of cross interaction among the partners The place technical information systems supporting the life cycle activities are specialized with respect to the needs of each actor in the process chain and are highly heterogeneous between them To globally innovate in place processes specialists must be able to work as a unique team in a virtual enterprise model To this aim it is necessary to make interoperable the different technical information systems and to define co operative engineering processes which take into account distributed roles shared activities and distributed process controls In this frame an innovative study aimed at addressing this process with the goal of identifying proper solutions in terms of design implementation and deployment has been carried out with the support of the European Community and the participation of major industrial companies and research centers

Image and Video Encryption Andreas Uhl, Andreas Pommer, 2005-12-28 Image and Video Encryption provides a unified overview of techniques for encryption of images and video data This ranges from commercial applications like DVD or DVB to more research oriented topics and recently published material This volume introduces different techniques from unified viewpoint then evaluates these techniques with respect to their respective properties e g security speed The authors experimentally compare different approaches proposed in the literature and include an extensive bibliography of corresponding published material
