Prague In Black And Gold The History Of A City:

Prague in Black and Gold Peter Demetz, 1998 Prague consists of many layers of symbolic sites and buildings which chart the ever evolving historical relationship between Germans Jews Czechs and the imprints left by their many rulers and conquerors as Demetz reveals in this history of the city

The Flâneur Abroad Richard Wrigley, 2014-10-17 This volume offers new perspectives on a crucial figure of nineteenth century cultural history the fl neur Recent writing on the fl neur has given little sustained attention to the widespread adaptation of the fl neur outside Paris let alone outside France and indeed Europe whether in the form of historic antecedents modern sequels or contemporary echoes Yet it is clear that the allure of the fl neur s persona has led to its translation and adoption far beyond Parisian boulevards and passages and this in different media and literary genres This volume maps some of the fl neur s travels and transpositions How far the fl neur is dependent on Paris as a milieu is opened up for questioning for all the international dispersal of this idea and model in some sense Paris is always present if only as a reference to kick against or replace When modern fl neurs step out in foreign cities how much of a Parisian ethos clings to them however they might claim independence Cities which provide counterpoints to Paris discussed here are Amsterdam Brussels Dublin Le Havre London Madrid New York Prague and St Petersburg This internationalised view also reconsiders the nature of the fl neur and revises stereotypes based on Walter Benjamin s account of Baudelaire Another key feature is the chapters which analyse the fl neur in terms of visual representations whether graphic illustration streetscapes urban design cinema or album covers related to musical examples from the 1950s to the present

History of the Literary Cultures of East-Central Europe Marcel Cornis-Pope, John Neubauer, 2006-09-13 Continuing the work undertaken in Vol 1 of the History of the Literary Cultures of East Central Europe Vol 2 considers various topographic sites multicultural cities border areas cross cultural corridors multiethnic regions that cut across national boundaries rendering them permeable to the flow of hybrid cultural messages By focusing on the literary cultures of specific geographical locations this volume intends to put into practice a new type of comparative study Traditional comparative literary studies establish transnational comparisons and contrasts but thereby reconfirm however inadvertently the very national borders they play down This volume inverts the expansive momentum of comparative studies towards ever broader regional European and world literary histories While the theater of this volume is still the literary culture of East Central Europe the contributors focus on pinpointed local traditions and geographic nodal points Their histories of Riga Plovdiv Timi oara or Budapest of Transylvania or the Danube corridor to take a few examples reveal how each of these sites was during the last two hundred years a home for a variety of foreign or ethnic literary traditions next to the one now dominant within the national borders By foregrounding such non national or hybrid traditions this volume pleads for a diversification and pluralization of local and national histories A genuine comparatist revival of literary history should involve the recognition that treading on native grounds means actually treading on grounds cultivated by diverse people

The

Economist, 1997 **Fine Incisions** Eric Ormsby, 2014-05-14 A poem I thought is as physical an object as tactile as a statue I began to consider poems in textual terms there were shaggy surfaces knobbly ones mere veneers as sleek as glassine but my favourites were those in which a complex and tensile music prevailed Eric Ormsby that gracious intelligent and occasionally fractious poet has produced another vigorous collection of essays to shake North American literary criticism from its lethargy Opinionated and hilarious Ormsby indulges his wide ranging interests and discusses writers from Bob Dylan to S D Goitein La Fontaine to Leo Tolstoy Fine Incisions also draws connections between Ormsby's literary criticism and his travel writing as his essay Shadow Language notes the music of another language can seep pleasurably into a writer's work and as Ormsby also notes the lack of such linguistic overlap cheapens much of contemporary poetry Although the topics vary widely Ormsby's viewpoint remains sharp and uncompromising and his familiarity with North American British and Arabic literary cultures informs each essay and leads to new and provocative reflection Most of all each essay is an expression of Ormsby's own romance with language and his devotion is clear in his adamant insistence on all writers very best The Intimate World of Josef Sudek Vladimír Birgus, Ann Thomas, Ian Jeffrey, 2016 Rckseite Titelblatt Published in conjunction with the exhibition The Intimate World of Josef Sudek organized by the Canadian Photography Institute of the National Gallery of Canada and held at the Jeu de Paume Paris June 7 September 25 2016 and at the National Gallery of Canada October 28 2016 March 19 2017 *Composing Urban History and the Constitution of Civic Identities* John J. Czaplicka, Blair A. Ruble, Lauren Crabtree, 2003-07-29 Composing Urban History and the Constitution of Civic Identities tells the story of how fractured urban communities sometimes succeed and sometimes fail at creating a way of life embracing the many varieties of people and institutions that make cities both urban and urbane The volume studies nine cities long divided by race nationality class and religion Washington D C Kaliningrad St Petersburg Lviv Prague Vienna Berlin Barcelona and Riga All have undergone greater and lesser transitions from authoritarian to democratic forms of government creating new needs and opportunities to shape a civic identity The contributors study these cities' presentations of their own history as embodied in everything from museum exhibits to architecture to street names Do a city's efforts at material renewal and reform reflect and promote an inclusive pluralistic self image that supports nascent democratic institutions or an exclusionary one that claims all the city for some particular group Drawing on the experiences of the past half century Composing Urban History and the Constitution of Civic Identities shows how the emergence of pluralistic images of the past present and future can open the way for more pluralistic understandings of power and social relations Contributors are John Czaplicka Howard Gillette Jr Grigori V Golosov Yaroslav Hrytsak Brian Ladd Siegfried Mattl James A Miller Jiri Musil Cynthia Paces Blair A Ruble Olga Sezneva Ojars Sparitis Pep Subiros Victor Susak Ilya Utekhin and John Michael Vlach **Prague in Black and Gold** Peter Demetz, 1997 Demetz begins with the intriguing myths about Prague's origins told and retold by generations of artists contrasting them with confirmed archaeological truths about the site's pre Roman settlements He weaves together the

colorful strands of Prague's literary traditions Latin Czech German and Jewish with the story of its scintillating political and cultural advances and focuses on key moments in its multicultural life under King Charles when it was the capital of the Holy Roman Empire in the turbulent years of the Hussite rebellion under Emperor Rudolf II during the Renaissance when it was home to Europe's best rationalists and most famous occultists in the time of Mozart and in the ages of revolutionary nationalism and of T G Masaryk heroic first president of Czechoslovakia Throughout Demetz shows how Czechs Germans Italians and Jews have lived and worked together in Prague for a thousand years Jacket The Literary Review, 1998

Giustino, 2003 Based upon a rich array of rare documents this book examines the local social and ethnic interest group struggles that fueled the large scale destruction and reconstruction of the city's former Jewish ghetto in 1887 Josef Mysliveček, "Il Boemo" Daniel E. Freeman, 2009 Of all the prominent musicians born in Bohemia in the eighteenth century none is surrounded with as much mystery and mystique as Josef Mysliveček 1737 1781 known as Il Boemo The Bohemian in Italy among music lovers unable to grapple with his unpronounceable Czech name Scion of a wealthy family of millers from Prague and himself a master miller he acquired training as a composer only in his twenties nonetheless he quickly became one of the most talented composers active in late eighteenth century Europe Despite a composing career of only eighteen years Mysliveček produced a large and diverse body of work twenty seven operas eight oratorios many shorter vocal compositions about fifty symphonies twenty nine overtures sixteen concertos and one hundred thirty four instrumental chamber works Prodigious successful and resourceful he lived most of his adult life as an itinerant composer in Italy uninterested in employment at any aristocratic or ecclesiastical musical establishment A friend of both Wolfgang and Leopold Mozart for eight years between 1770 and 1778 his dynamic personality full of fire spirit and life according to Wolfgang is vividly brought to life in the Mozart correspondence and not only the praiseworthy aspects but also the air of scandal that often followed him Complete and accurate information about Mysliveček's biography and works has remained elusive for many years The present study narrates his life in light of all available biographical documentation offers analytical discussions of all the genres in which he composed and for the first time presents catalogs of all his music fully detailing its sources editions and recordings During much of the last century Mysliveček's contributions to music literature were largely forgotten outside the Czech lands in part it is argued because of national biases In this book Mysliveček's particular style of composition is approached more systematically and his participation in the creation of what is now recognized as an era of

high classicism in European art music evaluated more comprehensively than in any previous study There is also a critical re appraisal of Myslivecek s relationship with the Mozart family and of his place in Wolfgang s musical development Some twenty eight letters in the surviving Mozart family correspondence mention Myslivecek and for no other composer did Wolfgang express such a degree of affection Indeed the full implications of their strong personal rapport invite revision of older assumptions about their standing with each other through scrutiny of specific works by both composers the author makes the case the Myslivecek was a distinctive compositional model for the young Mozart
