Excel 2007 Matthew MacDonald, 2006 Microsoft Excel continues to grow in power sophistication and capability but one thing that has changed very little since the early 90s is its user interface The once simple toolbar has been packed with so many features over the years that few users know where to find them all Microsoft has addressed this problem in Excel 2007 by radically redesigning the user interface with a tabbed toolbar that makes every feature easy to locate and use Unfortunately Microsoft's documentation is as scant as ever so even if users can find advanced features they probably won't know what to do with them Excel 2007 The Missing Manual covers the entire gamut of how to build spreadsheets add and format information print reports create charts and graphics and use basic formulas and functions Like its siblings in the Missing Manual series this book crackles with a fine sense of humor and refreshing objectivity about its subject guiding readers through the new Excel with clear explanations step by step instructions lots of illustrations and friendly time saving advice It's a perfect primer for small businesses with no techie to turn to as well as those who want to organize household and office information

Microsoft Office Excel 2007 in Depth Bill Jelen, 2008 Microsoft Office Excel 2007 In Depth will ease the upgrade path to the latest version of Microsoft's best selling spreadsheet program The author introduces you to the new interface allowing you to quickly get back up to speed in performing your job and will then introduce the powerful new features available in Excel 2007 Summary This book has been crafted to grow with the user providing the reference material needed for move towards Excel proficiency and use of more advanced features If you buy only one book on Excel Microsoft Office Excel 2007 In Depth is the one to choose Does your life play out in a spreadsheet Do numbers in columns and rows make or break you in the work world Tired of having numbers kicked in your face by other Excel 2007 power users who make your modest spreadsheets look paltry compared to their fancy charts and pivot tables If you answered yes to any of these questions Microsoft Office Excel 2007 In Depth is the book that will make it all better Learn quickly and efficiently from a true Excel master using the In Depth formula for success Here you'll find information that's undocumented elsewhere even in Microsoft's own Help systems You'll learn from finely crafted real life examples built by an author who lives and dies by the integrity of his spreadsheets Excel's backbone is its formulas and functions Master those and you will master your spreadsheets Microsoft Office Excel 2007 In Depth provides more down and dirty help with your formulas and functions than you'll find in any other book See how it's done in real life Don't settle for lame pivot table and chart examples found in other books This book provides beautifully detailed examples that not only show you how it should be done but how to be the local worksheet hero Author Bill Jelen is an accomplished Excel author and the principal behind the leading Excel website MrExcel.com As an Excel consultant he has written Excel VBA solutions for over 300 clients around the English speaking world His website hosts over 10 million page views annually Prior to founding MrExcel.com Jelen spent twelve years in the trenches working as a financial analyst for finance marketing accounting and operations departments of a 500 million public company
