Roads To Commensurability:

Roads to Commensurability D. Pearce, 2012-12-06 How many miles to Babylon Three score and ten Can I get there by candle light Yes and back again If your heels are nimble and light You may get there by candle light Any philosopher who takes more than a fleeting interest in the sciences and their development must at some stage confront the issue of incommensurability in one or other of its many manifestations For the philosopher of science concerned with problems of conceptual change and the growth of knowledge matters of incommensurability are of paramount concern After many years of skating over skimming through and skirting round this issue in my studies of intertheory relations in science I decided to take the plunge and make the problem of incommensurability the central and unifying theme of a book The present volume is the result of that decision My interest in problems of comparability and commensurability in science was awakened in the formative years of my philosophical studies by my teacher Jerzy Giedymin From him I have learnt not only to enjoy philosophical problems but also to beware of simpleminded solutions to them The vibrant seminars of Paul Feyerabend held at Sussex University in 1974 left me in no doubt that incommensurability was and would remain a major topic of debate and dispute in the philosophical study of human knowledge **Incommensurability and Related Matters** Paul

Hoyningen-Huene, H. Sankey, 2013-04-17 Incommensurability and Related Matters draws together some of the most distinguished contributors to the critical literature on the problem of the incommensurability of scientific theories It addresses all the various problems raised by the problem of incommensurability such as meaning change reference of theoretical terms scientific realism and anti realism rationality of theory choice cognitive aspects of conceptual change as well as exploring the broader implications of incommensurability for cultural difference While it offers new work and new directions of discussion on the topic of incommensurability the book also recapitulates the history of the discussion of the topic that has taken place within the literature on incommensurability Die Wissenschaftsphilosophie Thomas S. Kuhns

Paul Hoyningen-Huene, Thomas S. Kuhn, 1989 *The Road Since Structure* Thomas S. Kuhn, 2000-11 Divided into three parts this work is a record of the direction Kuhn was taking during the last two decades of his life It consists of essays in which he refines the basic concepts set forth in *Structure* Paradigm shifts incommensurability and the nature of scientific progress Inkommensurabilität als Problem rationalen Argumentierens Geert-Lueke Lueken, 1992 Seit Feyerabend eine auf die Inkommensurabilitätsthese gestützte Generalattacke gegen Rationalitätsansprüche schlechthin einleitete kann sie als der systematische Kern relativistischer und irrationalistischer Tendenzen der Gegenwartsphilosophie gelten Lueken präsentiert die Inkommensurabilitätsthese in ihrer Stärke und erarbeitet ein auf praktische Teilnehmerfragen verweisendes Problemverständnis Er zeigt wie vernünftiges Argumentieren auch zwischen inkommensurablen Positionen möglich ist

Alternativer Umgang mit Alternativen Frank Benseler, Bettina Blanck, Rainer Greshoff, Werner Loh, 1994 Mitte der

80er Jahre bildete sich an der Universität Gesamthochschule Paderborn eine Diskussionsgruppe die unzufrieden darüber war wie mit Vielfalt bzw Alternativen in den Kulturwissenschaften umgegangen wird Diese Unzufriedenheit bezog sich auf die verschiedensten Gebiete Selbst dort wo vielfältige Positionen in Forschung und Lehre dargestellt werden geschieht dies selten systematisch vergleichend Auch werden hierbei keine Methoden entwickelt die herausfinden lassen ob es sich bei den verschiedenen Positionen um Alternativen handelt und wie unter ihnen gegebenenfalls Lösungen als die vorerst besten auszuzeichnen sind Ohne Klärung dieses Problemkreises ist nicht zu sehen in welchem Ausmaß wissenschaftliches Wissen zu verantworten ist Angesichts der grundlegenden technischen Herausforderungen und der Bedeutung des wissenschaftlichen Wissens hierfür wurde die Frage drängend wie die angesprochene Lage zu verbessern sei Es stellte sich bald heraus daß es sinnvoll sein mußte einen neuen Typ einer wissenschaftlichen Diskussionszeitschrift zu gründen die nicht nur Forschungen präsentiert sondern selbst als Forschungsprojekt für die Suche nach einem besseren Umgang mit Alternativen konzipiert ist Ende der 80er Jahre gründete sie eine Initiativgruppe für die Zeitschrift Ethik und Sozialwissenschaften und konstituierte die FORSCHUNGSGRUPPE ERWAGUNGSKULTUR die seit 1990 diese Zeitschrift heraus gibt und Forschungsergebnisse in Arbeitspapieren veröffentlicht Ergebnisse der Forschungen dieser Gruppe sind in diesem Band abgedruckt Pragmatik: Allgemeine philosophische Pragmatik ,1986 **Rethinking Thomas Kuhn's Legacy** Yafeng Shan,2024-08-09 Thomas Kuhn is widely considered as one of the most important philosophers of science in the 20th century and his *The Structure of Scientific Revolutions* is regarded as one of the most influential works in the philosophy of science This book not only revisits his legacy in the history and philosophy of science but also explores and reflects on the prospect of the Kuhnian philosophy Moreover it includes the edited text of Kuhn's *Does Knowledge Grow* which was never published before Comprised of 15 newly written chapters by leading Kuhn scholars and philosophers of science across the globe from ten countries this book is of great interest to researchers and advanced students but also to general readers **Boston Studies in the Philosophy of Science** ,2001 *Zur Einheit der Naturwissenschaften in Geschichte und Gegenwart* Walter G. Saltzer,1990 *Law and Justice in a Multistate World* Arthur Taylor Von Mehren,James A. R. Nafziger,Symeon Symeonides,2002 For over half a century Arthur T von Mehren has been a luminary in the fields of comparative law private international law and legal education Here fifty eight of the world's leading scholars and jurists honor his work and outstanding contributions to the advance of knowledge and reform The volume is divided into four illuminating sections Part I Jurisdiction Judgment Part II Choice of Law Part III International Arbitration Part IV Comparative European Law Published under the Transnational Publishers imprint **Legal Traditions of the World** H. Patrick Glenn,2000 Written in a clear and accessible style this prize winning work seeks to recast the discipline of comparative law and offers a major new means of conceptualizing law and legal relations across the world Instead of a narrow focus on national legal systems Glenn places national laws in the broader context of legal traditions He examines seven of the world's most important and complex legal traditions in detail

chthonic or indigenous law talmudic law civil law islamic law common law hindulaw and Asian law Each tradition is examined in terms of its institutions and substantive law its foundational concepts and methods its attitude towards the concept of change and its teaching on relations with other traditions and peoples Mutual influences throughout history are noted and whilst the major and important differences are admitted the various traditions are nevertheless shown to be fundamentally commensurable Legal Traditions of the World concludes with a synthesis of the contribution of legal traditions to the understanding of tradition generally The normativity and multiplicity of the world s legal traditions are examined as is their ability as complex traditions to reconcile major differences of opinion or belief in a peaceable manner Complex traditions are ultimately shown to represent multivalent forms of logic and can thus be regarded as the best means of facilitating sustainable human diversity in an increasingly interdependent world

The Jarring Road to Democratic Inclusion Aviad Rubin, Yusuf Sarfati, 2016-08-30 This edited volume brings together chapters that offer theoretically pertinent comparisons between various dimensions of Israeli and Turkish politics Each chapter covers a different aspect of state society interactions in both countries from a comparative perspective including the public role of religion political culture women rights movements religious education religious movements marriage regulation labor market inclusion and ethnic minorities Israel and Turkey share significant similarities such as state formation under nationalist ideologies familiarity with democratic governance since the 1940s strong affiliation with the West recent resurgence of religious parties ongoing conflict with ethnic national minority groups that challenge the dominant national project contemporary popular protests against the incumbent regime and recent serious erosion of democratic rights At the same time they differ on major variables such as size majority religion geopolitical location level of economic development policy towards ethnic minorities and institutional arrangements to managing the state religion relations The presence of these differences in face of common backgrounds facilitates analytically grounded comparisons in a host of dimensions Therefore employing a case oriented comparative method this book provides historically interpretative and causally analytic accounts on the politics of both societies The contributions reveal the dynamic and complex rather than one dimensional and linear nature of political processes in both settings This empirically rich and theoretically sophisticated volume should contribute to a better understanding of these two important states and no less important stimulate new directions for comparative research especially on Middle East regimes social movements and democratization
