## **Walking Workout Prices Coupon:**

**Pricing: The key to profitability** Nicolás Restrepo Abad, 2025-05-19 There is a short questionnaire used to determine whether a company needs help with its pricing strategy. Curiously, every company that has completed it has answered yes to at least one of the questions: Is your company in the middle of a price war? Do you feel your customers only buy when your products or services are on promotion? Do you set prices based solely on your costs and your competitors' prices? Do you feel like a victim of tough customers who always want to negotiate better prices and discounts? Do you feel you're failing to capture the full value your products or services offer? In *Pricing: The key to profitability*, the concepts needed to design and implement a complete profit-focused pricing strategy are presented in a clear and practical way. Each topic is explained through real-world examples of companies selling both products and services in consumer and industrial markets alike. Nicolás Restrepo has succeeded with this book in presenting price from a strategic and marketing-oriented perspective, very different from the traditional cost-based approach. Entrepreneurs, executives, and marketing students will find in these pages the key to managing price as an active component of business strategy rather than as a last-minute commercial tactic. Nicolás Restrepo Abad holds an MBA from IE Business School. He is currently the President and founding partner of *prexus pricing solutions*, a company dedicated to providing pricing strategy consulting services to large corporations. His professional experience also includes roles in fast-moving consumer goods (Procter & Gamble) and telecommunications services (Orbitel). He has served as a pricing strategy professor in graduate programs at several business schools and has been a guest speaker at pricing seminars in major cities across Latin America.
