Casey, Paul Vigna, 2018-03-22 From the authors of the fascinating *The Age of Cryptocurrency* comes the definitive work on the Internet's next big thing the blockchain *The Adjunct Underclass* Herb Childress, 2019-03-29 Class ends Students pack up and head back to their dorms The professor meanwhile goes to her car to catch a little sleep and then eat a cheeseburger in her lap before driving across the city to a different university to teach another wholly different class All for a paycheck that once prep and grading are factored in barely reaches minimum wage Welcome to the life of the mind in the gig economy Over the past few decades the job of college professor has been utterly transformed for the worse America's colleges and universities were designed to serve students and create knowledge through the teaching research and stability that come with the longevity of tenured faculty but higher education today is dominated by adjuncts In 1975 only thirty percent of faculty held temporary or part time positions By 2011 as universities faced both a decrease in public support and ballooning administrative costs that number topped fifty percent Now some surveys suggest that as many as seventy percent of American professors are working course to course with few benefits little to no security and extremely low pay In *The Adjunct Underclass* Herb Childress draws on his own firsthand experience and that of other adjuncts to tell the story of how higher education reached this sorry state Pinpointing numerous forces within and beyond higher ed that have driven this shift he shows us the damage wrought by contingency not only on the adjunct faculty themselves but also on students the permanent faculty and administration and the nation How can we say that we value higher education when we treat educators like desperate day laborers Measured but passionate rooted in facts but sure to shock *The Adjunct Underclass* reveals the conflicting values strangled resources and competing goals that have fundamentally changed our idea of what college should be This book is a call to arms for anyone who believes that strong colleges are vital to society *Love Buzz* Neely Tubati Alexander, 2023-05-02 I loved this book Neely Tubati Alexander is a writer to watch Emily Giffin A sparkling debut about grief love family and the road not taken Allison Winn Scotch New York Times bestselling author of *The Rewind* and *Cleo McDougal Regrets Nothing* In this spectacularly enjoyable and serendipitous adventure a chance romantic encounter during a wild night at a Mardi Gras bachelorette party sends straitlaced Serena Khan's carefully constructed life into chaos A wretched maid of honor A hangover from hell Raucous Mardi Gras crowds There isn't much Serena Khan is enjoying about this four day New Orleans destination bachelorette party for her semi estranged cousin the bride to be UNTIL sparks fly with a handsome stranger who like her is also from Seattle at the ladies last stop of the evening a Bourbon Street bar After their conversation is cut short Serena is overwhelmed by the desire

to find the charming man with the brooding eyebrows but her list of clues is pretty short His name is Julian He lives on Chamber Hill He works at a tech company He loves Lil Wayne and Nirvana The need to find him is for Serena both irresistible and totally irrational In a few short weeks her college alumni magazine is featuring her in a Life at Thirty feature cementing her as a success story She will have officially achieved the safe stable life her late mother insisted upon Julian is not part of the plan As she combs Seattle for her New Orleans flame stripping away the perfectly curated life that would have made her mother proud Serena must decide if the pursuit of real passion is worth it and fast before she destroys the life she always thought she wanted In a sharply funny thoughtful and romantic debut combining the wistfulness of Rebecca Serle with the witty sizzle of Emily Henry Neely Tubati Alexander prompts us all to ask if the life we re living is a life worth loving
