these many De Niro's characters and the man seeking to understand the evolution of an actor who once dove deeply into his roles as if to hide his inner nature and who now seemingly avoids acting challenges taking roles which make few apparent demands on his overwhelming talent. Following De Niro's roots as the child of artists, his father the abstract painter Robert De Niro Sr. was widely celebrated who encouraged him from an early age to be independent of vision and spirit to his intense schooling as an actor, the rise of his career, his marriages, his life as a father, restaurateur and businessman and of course his current movie career. Levy has written a biography that reads like a novel about a character whose inner turmoil takes him to heights of artistry. His many friendships with the likes of Martin Scorsese, Meryl Streep, Harvey Keitel, Shelley Winters, Francis Ford Coppola among many others are woven into this extraordinary portrait of De Niro, the man and the artist, also adding a depth of understanding not before seen. Levy has had unprecedented access to De Niro's personal research and production materials, creating a new impression of the effort that went into the actor's legendary performances. The insights gained from De Niro's intense working habits shed new perspective on De Niro's thinking and portrayals and are wonderful to read. Levy also spoke to De Niro's collaborators and friends to depict De Niro's transition from an ambitious young man to a transfixing and enigmatic artist and cultural figure. Shawn Levy has written a truly engaging, insightful and entertaining portrait of one of the most wonderful film artists of our time, a book that is worthy of such a great talent. *Robert De Niro* Sabine Horst, 2002

Hommage Robert de Niro Rolf Aurich, Wolfgang Jacobsen, Gabriele Jatho, 2000 **Stars in Our Eyes** Angela Ndalanian, Charlotte Henry, 2002-03-30 The media star has become a powerful, almost unparalleled cultural sign even as the star system has undergone radical transformation since the era of the Hollywood studio system. Today's film industry continues to market and promote its products through actors in ways that seek to capture the often elusive quality that a star can embody. Using contemporary stars such as Robert De Niro, Keanu Reeves, Arnold Schwarzenegger and Dennis Hopper, this anthology of essays applies a variety of theoretical tools in its attempt to understand how we interpret stars and how we can begin to understand their cultural significance. Likewise, the study explores how the star system has become an increasingly complex phenomenon within society at large, extending its impact beyond the cinema into music, sports and fashion. Many of the essays collected here consider this shift and examine how personae including the director Sam Peckinpah, the royalty Princess Diana and even the digital star Lara Croft have captured the cultural imagination and have come to attain qualities as star-like as those of the silver screen. **The Coppolas** Vincent LoBrutto, Harriet R.
