Normans and Early Plantagenets Timothy Venning, 2014-02-26 Continuing his exploration of the pathways of British history Timothy Venning examines the turning points of the period from the death of William I to the reign of Edward III and a little beyond As always he discusses the crucial junctions at which History could easily have taken a different turn and analyses the possible and likely results While necessarily speculative to a degree the scenarios are all highly plausible and rooted in a firm understanding of actually events and their context In so doing Timothy Venning gives the reader a clearer understanding of the factors at play and why things happened the way they did as well as a tantalizing view of what might so easily have been different Key scenarios discussed in this volume include The civil war of 1136 53 how either Stephen or Matilda might have won quick and decisive victory and the likely consequences What if Richard the Lionheart had not gone on Crusade leaving the inept John to rule in his place Could the English Angevin Empire in France have been saved What if that fatal crossbow bolt had missed Richard in 1199 sparing him an early death What if Edward I's riding accident in 1294 had been fatal leaving Edward II to succeed at 10 years of age A whole chapter deals with scenarios surrounding the Scottish kings What if Robert the Bruce had been killed in 1306 As featured in The Argus Brighton Sussex Express and New Milton Advertiser **Ebbs and Flows of Medieval Empires, AD 900?1400** Will Slatyer, 2014-04 Ebbs and Flows of Medieval Empires AD 900 1400 provides a flow of history throughout the medieval world from 900 to 1400 AD describing the ebbs and flows of empires as the western world recovered from the dark ages As a point of reference author Will Slatyer presents the empires in Asia in the same timeframes as European empires illustrating patterns of similarity among these empires War remained important to leaders of the emerging nation and states as a primary method of gaining territory and expanding their influence Meanwhile the Church of Rome endeavoured to gain control of Europe secularly and spiritually often using the spread of Islam as an excuse for its widening span of control Islam was advanced spectacularly by the Arabs but lost much impetus when leaders of other ethnicities took control even so it continued to spread throughout the world Coinage again came into use during this period after the lapse of the usage of precious metals as compensation during the dark ages Trade grew particularly when spices from the Orient were introduced in Europe because they were so attractive in an age without refrigeration As city states became more civilised textiles for clothing came into strong demand International trade encouraged banking based upon models introduced by the Knights Templar Ebbs and Flows of Medieval Empires AD 900 1400 shows that human fear and greed demonstrated in ancient times continued with medieval leaders including popes
