With a Preface by Rudolf Nureyev

Phaidon Of The Ballet

Alex Ross

Phaidon Of The Ballet:

The Ballets of Ludwig Minkus Robert Ignatius Letellier, 2008-10-01 The composer Ludwig Minkus represents one of music's biggest mysteries. Who was he? Hardly anything is known about him and yet he occupied an influential position in the theatres of the Imperial ballet in late nineteenth century Russia. He has been recognised as a predecessor of Tchaikovsky but as a musician is commonly held to have been so feeble as to be beneath contempt. Yet despite the scorn heaped on him and his consequent obscurity Minkus is far from being forgotten. Since the early 1960s his name has slowly begun to re-surface. Two works, *Don Quixote* 1869 and *La Bayadère* 1877 have been presented in their entirety for the first time to new audiences all over the world. The musical and dramatic power of both ballets has taken people by surprise. The stories have a very real human appeal, the choreography attracts the admiration of balletomanes and the music with its rhythm, verve and beauty of melody holds attention and engages the heart wherever it is heard. This introduction seeks to discover something more behind the blank façade of Minkus's life and work. What do we actually know about him as a man and as an artist? Are we able to apprehend his oeuvre as a whole and how much can we establish from the available material? What is the nature of the music he created for those few works that have survived the years and that have come to the fore again recently to delight those who have ears to hear? This study includes iconography from the life and times of the composer, many musical examples from his works and a comprehensive bibliography and discography.

The Choreography of Antony Tudor Rachel S. Chamberlain Duerden, 2003 *The Choreography of Antony Tudor* Focus on Four Ballets presents both an analytical overview of the ballets created for the stage by Antony Tudor and an in-depth critical analysis of four key works: *Jardin aux Lilas* 1936, *Dark Elegies* 1937, *Pillar of Fire* 1942 and *The Leaves Are Fading* 1975. Tudor was a British choreographer who spent a large part of his working life in the United States and although he was not prolific in his output, his works include several masterpieces of twentieth century ballet repertoire. Characteristic of his work is an exceptionally creative and sensitive relationship of choreography with music, a relationship different from that developed by his equally musical contemporary George Balanchine in that it privileges subtle layers of dramatic, often psychological, exposition as well as complex mythic structures. Tudor's ballets invariably involve a psychological human dimension even when there is no story as such and it is these two strands, the musical and the dramatic, that the choreographer exploits with consummate skill in the best of his work.

Theatrical Costume, Masks, Make-Up and Wigs Sidney Jackson Jowers, 2013-10-15 This is the first bibliography in its field based on first-hand collations of the actual articles. International in scope, it includes publications found in public theatre libraries and archives of Barcelona, Berlin, Brussels, Budapest, Florence, London, Milan, New York and Paris, amongst others. Over 3500 detailed entries on separately published sources such as books, sales and exhibition catalogues and pamphlets provide an indispensable guide for theatre students, practitioners and historians. Indices cover designers, productions, actors and performers. The iconography provides an indexed record of over 6000 printed plates of performers in role illustrating
