

Phil Weyerhaeuser
LUMBERMAN

by Charles E. Twining

Phil Weyerhaeuser Lumberman

RC Schank

Phil Weyerhaeuser Lumberman:

Phil Weyerhaeuser, Lumberman Charles E. Twining, 1985 This is a rich and many faceted personal and business biography of the main figure in the third generation of Weyerhaeusers who led the Weyerhaeuser Timber Company through the difficult and decisive years from 1933 to 1956 Although Phil Weyerhaeuser preferred to pass over the importance of his role he was an industry leader and as such could not escape a large public duty The years in which he served from the 1920s in the Inland Empire and from 1933 to 1956 with the Weyerhaeuser Timber Company west of the Cascades were years of great demands and change Within his tenure the country experience the Great Depression and World War II the reluctant acceptance by business of New Deal and Fair Deal legislation and bureaucratic requirements and the adjustments occasioned by the managerial revolution In the case of the Timber Company the period witnessed its transition from what had been primarily a dealer in timberlands to an integrated manufacturer of forest products from a liquidator of forest resources to a managers of tree farms designed to be perpetual in their providence Phil oversaw his responsibilities to good purpose His quiet style is of interest and so too are the effects of just being a Weyerhaeuser The latter of course had much to do with his opportunities and also influenced the manner in which he conducted himself But it was not without its liabilities and the family relationships are an important element in the story The most significant feature however has to do with the study of a period and a place and an industry through the experiences of a very special organization and its leadership The study brings people and events into clearer focus and gives them added meaning This is of particular importance in an industry so given to stereotyping and disapprobation This well written account reveals in detail the operation of a huge family enterprise government industry relations at a key time in United States history labor relations and efforts to expand and continually revitalize a large company dependent on natural resources over a period of half a century Central to these efforts was Phil's conviction that the best way for a forest products company to operate was to own its own timberlands he saw such holdings as necessary if the company was to engage in sustained yield management This biography draws extensively on primary sources correspondence family records memoranda and numerous interviews It will be of interest to historians of the Pacific Northwest and the forest products industry students of business history and all readers interested in the development of a major American company

Phil Weyerhaeuser, Lumberman Charles E. Twining, 1985 Legendary Locals of Lakewood Steve Dunkelberger, Walter Neary, 2014-04-21 Lakewood was a vibrant community long before it incorporated in 1996 though cityhood helped give the area one name and identity In the mid 19th century Lakewood was the site of British farms and the first US military base in Washington Territory Men who became famous in the Civil War such as George Pickett served there Native American leader Leschi the victim of judicial lynching by civilians spent his last days there As Lakewood became a retreat for Puget Sound's rich and famous names such as Carman and Alexander as famous in their day as the name Weyerhaeuser was and is settled here leaving behind reminders like Lakewold Gardens One of Lakewood's most famous

residents was Ivan a captive gorilla who captured the hearts of animal lovers worldwide

The Southern Lumberman, 1957

Clearcutting the Pacific Rain Forest Richard A. Rajala, 1998 This book integrates class environmental and political analysis to uncover the history of clearcutting in the Douglas fir forests of B C Washington and Oregon between 1880 and 1965 Part I focuses on the mode of production analyzing the technological and managerial structures of worker and resource exploitation from the perspective of current trends in labour process research Rajala argues that operators sought to neutralize the variable forest environment by emulating the factory model of work organization The introduction of steam powered overhead logging methods provided industry with a rudimentary factory regime by 1930 accompanied by productivity gains and diminished workplace autonomy for loggers After a Depression inspired turn to selective logging with caterpillar tractors timber capital continued its refinement of clearcutting technologies in the post war period achieving complete mechanization of yarding with the automatic grapple Driving this process of innovation was a concept of industrial efficiency that responded to changing environmental conditions product and labour markets but sought to advance operators class interests by routinizing production The managerial component of the factory regime took shape in accordance with the principles of the early 20th century scientific management movement Requiring expertise in the organization of an expanded technologically sophisticated exploitation process operators presided over the establishment of logging engineering programs in the region's universities Graduates introduced rational planning procedures to coastal logging contributing to a rate of deforestation that generated a corporate call for technical forestry expertise after 1930 Industrial foresters then emerged from the universities to provide firms with data needed for long range investment decisions in land acquisition and management Part II constitutes an environmental and political history of clearcutting This reconstructs the process of scientific research concerning the factory regime's impact on the ecology of the Douglas fir forest assessing how knowledge was utilized in the regulation of cutting practices Analysis of business government relations in British Columbia Washington and Oregon suggests that the reliance of those client states on revenues generated by timber capital encouraged a pattern of regulation that served corporate rather than social and ecological ends

The Lumberman's Frontier Thomas R. Cox, 2010 With *The Lumberman's Frontier* Thomas Cox has reconstructed a groundbreaking history that stands apart from all previous studies of American forests Forests were ubiquitous in early America but it was only in selected areas that trees rather than farming attracted settlement These areas constitute the lumberman's frontier which appeared first in northern New England in the seventeenth century followed by upstate New York the Allegheny Plateau the upper Great Lakes states the Gulf South and the Far West The forest frontiers generated capital and building materials important in the nation's development but they also left a legacy of environmental problems class and urban rural divisions and economic frictions The 1930s marked the end of the lumberman's frontier but these consequences continue to shape attitudes and policies toward forests most notably the questions Whose forests are they and How and by whom should forests be used Drawing upon recent work in

social and economic history as well as a wealth of historical data on forest industries and individuals The Lumberman s Frontier neither glorifies economic development nor falls into the maw of gloom and doom It puts individual actors at center stage allowing the points of view of the workers and lumbermen to emerge The Lumberman s Frontier will appeal to students and scholars of forestry public policy and environmental history as well as to general readers interested in the history and settlement of the United States

International Bibliography of Business History Francis Goodall,Terry Gourvish,Steven Tolliday,2013-12-16 The field of business history has changed and grown dramatically over the last few years There is less interest in the traditional company centred approach and more concern about the wider business context With the growth of multi national corporations in the 1980s international and inter firm comparisons have gained in importance In addition there has been a move towards improving links with mainstream economic financial and social history through techniques and outlook The International Bibliography of Business History brings all of the strands together and provides the user with a comprehensive guide to the literature in the field The Bibliography is a unique volume which covers the depth and breadth of research in business history This exhaustive volume has been compiled by a team of subject specialists from around the world under the editorship of three prestigious business historians **GEORGE S LONG (cl)** ,

Montana, the Magazine of Western History ,1993 **Quarterly Journal of Forestry** ,1986 **American Lumberman** ,1939 Forest Watch ,1986 **American Lumberman & Building Products Merchandiser** ,1957 The Pacific Historian ,1985 **International Directory of Company Histories** Jay P. Pederson,2007-02-06 This multi volume series provides detailed histories of more than 8 500 of the most influential companies worldwide **The Wisconsin Magazine of History** Milo Milton Quaife,Joseph Schafer,Edward Porter Alexander,1986 **Minnesota History** Theodore Christian Blegen,Bertha Lion Heilbron,1986 Vol 6 includes the 23d Biennial report of the Society 1923 24 as an extra number **South Dakota History** ,1998 **Family Trees** Robert Spector,1990 Solomon Grout Simpson son of Joseph Simpson and Caroline Grout was born in 1843 in Quebec He married Mary James Macon Garrard daughter of William Montjoy Garrard in 1876 in Carson City Nevada They moved to Seattle Washington in 1878 He founded the Simpson Logging Company in 1895 in Mason County Washington Solomon died in 1906 and the company was taken over by Mark Edward Reed 1866 son of Thomas Milburne Reed and Elizabeth Finley Mark married Irene Simpson in 1901 Encyclopedia of the American West Charles Phillips,1996 The Encyclopedia focuses on the people and peoples of the West approaching the region as a collection of multiethnic frontiers and as the spawning ground for an array of industries and enterprises that each gave rise to its own culture and carried with it important ecological consequences p xi
