Designing

Information Joel Katz, 2012-08-20 The book itself is a diagram of clarification containing hundreds of examples of work by those who favor the communication of information over style and academic postulation and those who don't. Many blurbs such as this are written without a thorough reading of the book. Not so in this case. I read it and love it. I suggest you do the same. Richard Saul Wurman. This handsome clearly organized book is itself a prime example of the effective presentation of complex visual information eg magazine. It is a dream book we were waiting for on the field of information. On top of the incredible amount of presented knowledge this is also a beautifully designed piece very easy to follow. Krzysztof Lenk author of Mapping Websites Digital Media Design Making complicated information understandable is becoming the crucial task facing designers in the 21st century.
